He explained that the area has become ground zero fir most complaints and increase in violent incidents. Trustee Ortiz wanted to know if the District has had any meetings with any of the stakeholders, university people, and social services who are there. Leo Segura, Library Operations Director reported that the Branch Manager, Robbin Gaebler has been in contact with the ClickIt and FixIt Clark County routinely to address some of the issues. He also reported that there is security in the parking lot and close relations with the Robot Lab University that is across the street. Leo Segura says that Metro and Clark County are also involved with the Library District. He reported that the numbers last month were lower than the previous month. Leo Segura agrees that a meeting can be set up again as done in the past. Counsel Gerald Welt suggested getting a homeless advocacy group involved in the conversation.

Trustee Ortiz asked if there was a typo on the statistics report on page 24 with the percentage increase at Meadows Library. Leo Segura responded that the percentage is correct and that reasoning is because the branch was mostly closed last year. Trustee Ortiz had concerns about the huge drop in services- gate count and circulation. He suggested that Leo Segura have a conversation with Branch managers to see what can be done to increase the numbers. Leo Segura explained that after his statistics meeting with the Urban Libraries Council, other libraries are down at least 50 percent or more in circulation and gate count. He explained that the Library District is seeing a steady increase with the increase of programs and outreach events. As a part of the Playbook plan, the managers are analyzing different ways to increase traffic.

| | Chair Wilson asked Trustee Ortiz if there was anything in the Redline that stood out. Trustee Ortiz responded that nothing stands out timing is important. Chair Wilson also asked what the next big concern is. Trustee Ortiz responded that architectural drawings are needed to go for funding for New Market Tax Credits to determine how much steel is needed to purchase because the price of steel is escalating. Trustee Ortiz also agrees that the community workshops on page 91 of the General Services Report, scheduled for November 29 th and December 15 are good timeframes. Discussion and possible Board action regarding the Finance and Audit Committee's recommendation to approve the audit performed by BDO USA, LLP for the Fiscal Year 2020-2021. (Item VIII.B.1)

Discussion and possible Board action authorizing the Executive Director to execute a three-year renewal with BiblioCommons, with the option of two one-year renewals, subject to final review by Counsel, for the purpose of extending the Library District's current website software, which provides online public access to the materials catalog and events calendar. (Item VIII.B.2.)

Floresto Cabias, Chief Financial Officer, reported that on November 9, 2021 he updated the Finance and Audit Committee with the results of the audit for 2021. He reported that the audit went very smoothly and there were no findings, any deficiencies, or material weaknesses.

Trustee Rogers made a motion to approve the 2020-2021 Audit Report as presented by BDO, USA LLP and to incorporate the opinion letter into the official minutes of the Board of Trustees November 10, 2021 meeting. Trustee Waugh second the motion.

There was no opposition and the motion carried. (Opinion letter attached)

Betsy Ward, Branding and Marketing Director reported that for the new contract, the increase year-over-year from the current contract will be roughly 2.5 percent for the first year, 3 percent for years two and three and 3.25 percent for the optional, additional four and five years if the District decided to go with that.

Trustee Ortiz asked Counsel Gerald Welt if he had the opportunity to review the contract. Counsel Welt responded yes, that the contract is basically the original contract, and this is a follow up because this contract is continuing the base contract that was already approved. Trustee Ortiz asked for clarity on the number of years for the contract. Counsel Welt explained that this contract is for a three-year renewal with two one- year options after, which will be a five-year contract. Betsy Ward explained that the contract will start in December.

Trustee Ortiz begin to explain that he did not feel comfortable in the total value of the contract and was not clear on what the Board was voting on. He question if the amount was half a million, \$200 million, or \$1,000. Chair Wilson explained that it is \$270,000 a year that averages out for three- years, which doesn't include the fourth and fifth year extensions if the District opts for them. Floresto Cabias calculated that it would be around \$800,000. Counsel Welt explained that the Board would only be voting on the three-year contract now plus the ability to go forward for the additional two year if desired. The option to extend will come back to the Board for approval.

Trustee Ortiz made a motion to authorize the Executive Director to execute a three-year renewal, with the option of two one-year renewals, subject to final review by Counsel, to continue the BiblioCommons Software subscription, training, support, and upgrades with an estimated

value of \$810,000 for three years subject to renewals. Trustee Waugh second the motion.

There was no opposition and the motion carried.

Executive Summary

Status of Our Audit

We have substantially completed our audit of the financial statements as of and for the year ended June 30, 2021. Our audit was conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*. This audit of the financial statements does not relieve management or those charged with governance of their responsibilities.

- The objective of our audit was to obtain reasonable not absolute assurance about whether the financial statements are free from material misstatements.
- ▶ The scope of the work performed was substantially the same as that described to you in our earlier Audit Planning communications.
- ▶ We expect to issue an unmodified opinion on the financial statements and release our report on November 10, 2021.
- We expect to issue our report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with Government Auditing Standards.
- ▶ Our responsibility for other information in documents containing the District's audited financial statements (management's discussion and analysis, postemployment benefits other than pensions, schedule of funding progress, proportionate share of the collective net pension liability information, proportionate share of statutorily required pension contribution information and budgetary comparison information) does not extend beyond the financial information identified in the audit report, and we are not required to perform procedures to corroborate such other information. However, in accordance with professional standards, we have read the information included by the District and considered whether such information, or the manner of its presentation, was materially inconsistent with its presentation in the financial statements. Our responsibility also includes calling to management's attention any information that we believe is a material misstatement of fact. We have not identified any material inconsistencies or concluded there are any material misstatements of facts in the other information that management has chosen not to correct.
- > All records and information requested by BDO were freely available for our inspection.
- Management's cooperation was excellent. We received full access to all information that we requested while performing our audit, and we acknowledge the full cooperation extended to us by all levels of District personnel throughout the course of our work.

Results of the Audit

ACCOUNTING PRACTICES, POLICIES, ESTIMATES

The following summarizes the more significant required communications related to our audit concerning the District's accounting practices, policies, and estimates:

The District's significant accounting practices and policies are those included in Note 1 to the financial statements. These accounting practices and policies are appropriate, comply with generally accepted accounting principles and industry practice, were consistently applied, and are adequately described within Note 1 to the financial statements.

- A summary of recently issued accounting pronouncements is included in Note 2 to the District's financial statements.
- There were no changes in significant accounting policies and practices during fiscal year 2021.

Significant estimates are those that require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. The District's significant accounting estimates, including a description of management's processes and significant assumptions used in development of the estimates, are disclosed in notes of the financial statements.

Significant Accounting Estimates

Fair value measurement of investments

Net pension liabilities

Other post-employment benefits obligations (OPEB)

Management did not make any significant changes to the processes or significant assumptions used to develop the significant accounting estimates in 2021.

Results of the Audit

QUALITY OF THE DISTRICT'S FINANCIAL REPORTING

A discussion was held regarding the quality of the District's financial reporting, which included:

Results of the Audit

CORRECTED AND UNCORRECTED MISSTATEMENTS

There were no corrected misstatements, other than those that were clearly trivial, related to accounts and/or disclosures that we brought to the attention of management, except for an adjustment to record a cumulative catch-up of rental expense, and due to related party, in the amount of \$293,182, in order to recognize rental expense on a straight-line basis over the expected term of the lease agreement between the District and East Las Vegas QALICB, Inc.

There were no uncorrected misstatements, other than those that were clearly trivial, related to accounts and/or disclosures that we presented to management.

Internal Control Over Financial Reporting

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

We are required to communicate, in writing, to those charged with governance all material weaknesses and significant deficiencies that have been identified in the District's internal control over financial reporting. The definitions of control deficiency, significant deficiency and material weakness follow:

| Category | Definition |
|------------------------|---|
| Control Deficiency | A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. |
| Significant Deficiency | A deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. |
| Material Weakness | A deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the District 's financial statements will not be prevented, or detected and corrected on a timely basis. |
| | |

In conjunction with our audit of the financial statements, we noted no material weaknesses.

no opposition and the motion carried. CFO Floresto Cabias stated that at the March 11, 2021 meeting, the Board of Trustees authorized staff to appoint BDO USA to perform the audit for the fiscal year ending June 30, 2021. Chris Farthing, a partner with BDO, would present the results of the audit. He thanked Mr.

Trustee Ramaker moved to approve the Agenda as proposed. There was

Farthing and his team for their hard work. Mr. Cabias mentioned a corrected adjustment of \$293,000.00 that was noted in the Audit Wrap Up report. He explained it was the cumulative effect of lease payments for the East Las Vegas QALICB, going back to fiscal year 2018. It is not a material amount because it represents a fraction of one percent of the District's finances.

Board of Trustees' Mr. Farthing said the audit manager, Yinkie, was also on the phone. He meeting on explained the Audit Wrap Up report: the objective of an audit is to obtain November 10, 2021. reasonable, but not absolute assurance over the financial statements. The scope of the audit was substantially the same as the audit planning (For possible presentation, which had been presented to the Committee. The action). (Item unmodified opinion would be finalized the next day, after the Board meeting in which the Board would approve the report. At that time, the report on internal control over financial reports in accordance with government auditing standards would also be issued. Mr. Farthing stated there were no significant changes to accounting policies. He then referenced a small, immaterial error going back to 2018 regarding the

rent payments, which did not require any restatement or corrections, as it was a minor item with no material impact. The audit did not identify any deficiencies or material weaknesses in internal controls, though that is not the main focus of the audit. Mr. Farthing stated that BDO used specialists for certain aspects of the audit. There were no significant delays, difficulties, or contentious matters. BDO would obtain a management representation letter the next day. He affirmed that BDO is independent from the Library District.

Concluding his presentation, Mr. Farthing asked the Committee members if there were any questions.

As there were no questions, Trustee Waugh moved to accept the Fiscal Year 2020-2021 Audit Report and to recommend approval of the Fiscal Year 2020-2021 Audit, as presented by the auditors, at the Board of Trustees' Meeting on November 10, 2021.

There was no opposition and the motion carried.

Update on the District's financials and update of projections. (For discussion only) (Item IV.B.) CFO Floresto Cabias displayed a Financial Services Update presentation detailing the District's financial status and an update of projections. He stated that he had had high expectations for the revenues heading into the end of Fiscal Year 2021, but some of the numbers, especially consolidated sales tax (CTX), were even higher than expected, at 24 million instead of between 23 and 23.5 million dollars. This was actually 6.4 million higher than budgeted. He recognized that the budgeted amount was conservative.

Property taxes also came in \$753,000 higher than budgeted.

Due to the District's due diligence and conservative approach to spending, there were significant savings in expenditures, especially in total personnel costs. This was due primarily as a result of the Voluntary Employee Separation Program (VESP), which cost 4.5 million – but savings in the personnel category came in at 2.7 million. He acknowledged the Teamsters Local 14 concessions as well as freezing open positions in contributing to the savings in this category.

The District also proactively scrutinized all contracts and other controllable expenditures, resulting in an additional 3 million in savings.

The District had allowed for the entire capital outlay budget to be spent in library materials, but 1.3 million dollars of that was unspent because the approach is not to exhaust the entire budget if it's not necessary.

This all combined for a total of 7 million in total savings. The additional revenues led to an Ending Fund Balance of 31 million at the end of Fiscal Year 2021, which was 16 million more than budgeted, and was, in fact, higher than adjusted expectations.

Mr. Cabias went on to expected revenues and expenditures for the current Fiscal Year, 2022. Only one month of CTX revenues were available for review at the time this financial update was prepared, but another CTX collection had since been received. Not only were the revenues higher than the same period in 2020, but they were higher than the same period in 2019, which was pre-pandemic. It is clear that CTX revenues have recovered, and are expected to continue through the

Minutes - Board of Trustees' Finance and Audit Committee Meeting November 9, 2021 Page 3

current Fiscal Year. Although the first two months' average increase of 30 percent higher than the same period a year ago is not expected to continue at the same rate, it does appear that projected CTX will be much higher than budgeted, and higher than more recent, adjusted expectations.

CTX revenues had dropped in 2020, due to pandemic-related economic closures. The federal stimulus, pent up demand, and the lifting of restrictions drove the increase in revenues. CTX is now projected to reach 26 million by the end of the Fiscal Year, instead of 25 million.

Trustee Wilson joined the meeting at 1:18 pm.

A graph showed property tax revenues continuing on a positive trend upward. Based on the way property taxes are levied and the current real estate market, property tax collections are expected to come in as budgeted, or higher.

CFO Cabias mentioned he and many of the Trustees had attended the VISTA Economic Outlook that morning, and the information presented by many experts, based on a wide range of analytics, supports the positive outlook the District is foreseeing.

CFO Cabias stated that while the District can't control revenues, it can control expenditures. Expenditures for July through September 2022 are lower than the prior two Fiscal Years. Fiscal Year 2020 expenditures were higher due to the VESP and expenses related to the pandemic, including personal protective equipment (PPE). Fiscal Year 2021 expenditures were lower due to the savings in personnel costs and controlled supplies and services expenditures. The VESP continues to pay dividends in the current Fiscal Year, and likely in future fiscal years.

The current estimate for the rest of Fiscal Year 2022 projects another 2.8 million in revenues compared to the original budget. Another 6 million is expected in savings in expenditures. There was 31 million in ending fund balance in the General Fund at the end of Fiscal Year 2021, and there will be 27 million at the end of Fiscal Year 2022.

Because there will be a surplus in excess of our minimum balance of 20 percent of expenditures to maintain a reserve in case of further economic downturns, more funds will be available to transfer to the Capital Projects Fund. The Capital Projects Fund balance dropped in Fiscal Year 2021, because transfers from the General Fund weren't made, as would have traditionally been done had there not been economic downturns and challenges. Expenditures were scaled down and limited to critical programs, as the District does not exhaust the budget whenever possible. The District strives to maintain consistent savings, so 2.7 million was saved during the full pandemic year, leaving a 7.9 million ending fund balance. In Fiscal Year 2022, the District plans to transfer 19 million to the Capital Projects Fund to replenish the reserves in critical programs, and also contribute to future projects. Almost 21 million Ending Fund Balance is expected by the end of Fiscal Year 2022. This is just in time for the implementation of the Playbook 2026 and other projects the District and Board have prioritized. CFO Cabias stated we are expected to add onto that balance in Fiscal Year 2023. He expects to be able to match or exceed the 19 million transfer to the Capital Projects

| | Fund, depending on the momentum of the economy, continued savings, and conservative spending practices, along with continued surplus of revenues – assuming that we don't face additional challenges. He acknowledged, as many of the experts at the VISTA Outlook did, that some challenges are likely in the longer term. He emphasized the importance of the budget approach, which has always allowed the District to stay resilient during financial challenges, while at the same time giving the District the opportunity to have the resources in place to fund critical projects and other priorities. |
|-----------------------------|---|
| | Mr. Cabias said he would be glad to answer any questions. Hearing none, Chair Rogers stated he felt it was a thorough, measured approach to the budget. It said it's great that the District is in a financially healthy condition, even through the pandemic, and that the Board is comfortable with the District, fiscally. Chair Rogers thanked Mr. Cabias and commended him on an outstanding job. |
| | It was stated for the record that Trustee Ortiz had been in attendance during the entire meeting. He did not have any questions. |

ITEM VI.A.1.a.

MEMORANDUM

TO: Board of Trustees through Mr. Kelvin Watson, Executive Director

FROM: Leo Segura, Library Operations Director

DATE: November 29, 2021

SUBJECT: Library Operations Report, December 2021

This report provides an overview of the Library Operations initiatives including 25 Branch Libraries and the Misdemeanant Jail Library. This report covers **November 01 – November 29, 2021**.

At the November 10 meeting, the Board asked me if Gate Count was still a relevant metric to share and to discuss our plan to improve gate count. Door count continues to be a small part of the standard performance measures that we collect and report to the Director, Board, Nevada State Library and Public Libraries Data Reporting Services.

Gate count alone does not give a full accounting of building use and we typically collect break the beam statistics to count how many people enter and exit a space. As IT transitions us to smart counters with improve accuracy in reporting, our counts will only become more relevant. In addition to gate count, we provide additional metrics to the Board so that when taken together they can review qualitative and comprehensive monthly and yearly breakdown of library services and activities. Additionally, the Department Directors typically highlight qualitative information throughout their Department Reports.

The November report called out shows Whitney Library's September gate is down -51% from the previous year. This is in part because last year we improved the accuracy of our count at Whitney Library. We no longer compile the number of folks visiting the restroom, gallery, or theater into the overall entry counts. I asked IT to relocate the library entry counter to the actual entry door last year. Now I can separate entry/exit counts from theater, restroom, staff, gallery visits. December reports for Whitney are similar at -51% and this trend will continue for a year until we are counting similar data.

The other question I received was for Meadows; why it is showing a 10.6K% improvement? If you change from 12 customers entering the branch to 1,288 customers entering the branch, then the percentage change is accurate (((Y2-Y1)/Y1)x100). Contextually, for much of 2020 Meadows Library was only serving the Vegas Strong Academy at the Stupak Community Center. They closed several times due to COVID and did their gym resurfacing which include a closure at a different time of year than typically done, effecting the percent change. October percent

change for Meadows is still high but does bring us back to normalized numbers and they were still supporting only Vegas Strong Academy in October 2020.

The November report also shows that nearly all urban branches had an improvement in gate count from 2020 to 2021. For half the Outlying Branches, the large percentage change can occur from a small number change in visitors because they are typically smaller locations and any change to gate can be dramatic. Overall, we had an increase in gate of 4% for the month and 13% for the year. We are continuing to improve on attracting customers back to our libraries even during a pandemic. We are still under masking and distancing orders and many of our customers choose to obtain services remotely.

December's report shows similar change with Centennial Hills, West Charleston, and Centennial Hills having additional challenges attracting patrons back into their branch. Not having guaranteed draw of customers like through the Vegas Strong Academy last year will negatively impact this year's total and most of the branches with large negative changes were supporting Vegas Strong Academy or had large numbers of college students regularly using library Wi-Fi and space in 2020.

Branches Libraries are leading the way in our efforts to improve overall metrics by building and implementing their individual Branch Playbooks as part of our District-wide initiative, Playbook 2026, thereby addressing our community's library and service needs. This includes bringing the library out to where our customers are as well as enticing them to come back into the library during an active pandemic. Whitney Library is planning an Advantage Marketing program that invites past customers and new customers to discover their community and their library. Other plays include adding new technology like circulating iPad Kiosks, improving Teen Zones, implementing minimum storytime standards which bring in families. We invite our Collection Development teams into the branches to tweak collections making them more relevant and attractive and we are working with Community Engagement and the Library Foundation to bring in additional programming and STEAM classes. Many customers follow pre-pandemic habits and are comfortable with regularly visiting branches in-person while others remain more cautious and avoid areas where others congregate, including libraries. Branches are designed their Playbooks for services and programming to attract customers but this is never a guarantee. Our playbook allows us to be flexible enough to shift and change what and how we do in order to meet those service needs.

POWERFUL PEOPLE

 Library Operations currently has 461 employees and 12 active recruitments for a total of 473 positions out of the 606 we have budgeted for FY 2022. This is currently a 22% vacancy. We held open positions to accommodate the Voluntary Employee Separation Program (VESP), additional voluntary separations post VESP, and positions like part-time pages and others that we have not yet rehired while physical circulation remains reduced.

Library Operations is responsible for providing library Customer Services (Circulation), Adult Services, Computer Lab Operations, Youth, and Teen Services to 25 branch libraries and the city of Las Vegas Misdemeanant

Facility; and oversees Call Center operations, which provides outsourced service for customers by phone.

Library Operation services includes and is not limited to device advice, reference and readers advisory, computer classes, computer assistance, storytime, school visits, outreach, book clubs, STEAM, Maker Space, Robotics, Coding and other programming.

Community Engagement reports that we are at levels of programming that we have not seen since 2019 and that the numbers in attendance are beginning to rise. Adult Services staff from Reference and Reader Services are participating and leading programs like book club and Senior Center Outreach visits to keep our customers actively involved. Programs offered by Youth and Adult Library Operation staff are included and compiled as part of the Urban and Outlying Branch sections of the Community Engagement Statistical reports. Many of our programs garner fiscal support through Community Engagement and/or the Foundation and are proof that it really does take a village!

In October 2021, there were **66** incidents, an **increase of 6.5%** from the total experienced during the height of the pandemic in October 2020 but a **decrease of -4.3%** from October 2019. During this period, the District recorded **260,318** in-person visits. **This ratio is one incident for every 3,959 visits**.

October incidents fall within normal monthly averages. Incidents include all types of activity not just disturbances with customers. Masking issues were cited in thirteen (13) incidents or 19.7% of October incidents.

The **Clark County Library** recorded the highest number of incidents at **16 incidents** which is **4% more** compared to October 2020. However, this is down from the **24** incidents they expertly handled in September. The remaining branches reported between **0-9 incidents** and followed standard trend lines that indicate lower incidents from peaks in August.

Clark County Library ranks **4**th for Incidents **per 1,000 square ft**. and has the largest number of Persons-In-Charge (PICs) assigned to the building at 14. Sahara West Library typically carries 11 PICs, and the remainder average six (6) to seven (7). Clark County Library does cover three (3) floors and has a theater that operates during and after hours.

During the November 10, 2021 Board Meeting, I was asked **what we have been doing to mitigate incidents** with specific questions regarding homeless individuals around the Clark County Library.

The Las Vegas-Clark County Library District (LVCCLD) does not discriminate based on income, and we adhere to the Library Bill of Rights, which in part states in section V. that, "A person's right to use a library should not be denied or abridged because of origin, age, background, or views." Further, the Library District has a Diversity Action Plan with a history of support for diversity, equity and inclusiveness, and maintaining a respectful and positive environment for both staff and customers. We also recognize a person's fundamental right to receive information.

Clark County *Homeless Help* Reports that we have approximately **5,300** people experiencing homelessness on any given night and more than **14,000** people in So. NV experiences homelessness **at least once** during the year. So. NV spends **\$39 Million annually** to support programs and services for the homeless and those at-risk of becoming homeless plus "about **\$14 million** a year in **federal grants** through the Southern Nevada Homelessness Continuum of Care (CoC). (The County supports the activities of the CoC, including coordinating the grant application.) Organizations supported by CoC funds include the **Nevada Partnership for Homeless Youth**, St. Jude's Ranch for Children, the Salvation Army of Southern Nevada and many others. The goal of all these efforts is to prevent homelessness when we can and help those who are currently homeless get back on their feet."

- <u>https://www.clarkcountynv.gov/residents/assistance_programs/homeless_help.php</u> The Shannon West Homeless Youth Center and the Nevada Partnership for Homeless have locations near the Clark County Library.

These are a few of the activities that we have been doing at Clark County Library and other locations to help mitigate incidents in and around our branches.

- Staff takes the Ryan Dowd training on customer service to people challenged by homelessness that teaches staff how to treat all customers with respect, dignity, and sensitivity.
- Staff participate in the Nevada Partners for Homeless Youth (NPHY) annual summit to help mitigate homelessness.
- Staff participate on our Homelessness Task Force to host resource fairs that connect homeless and at risk youth with community resources.
- LVCCLD Library Operations works with our Legal Counsel to ensure that we stay true to our First Amendment Obligations to the right of the citizenry to receive information regardless of their status.

- In 2014 LVCCLD Implemented the Discipline and Security Team (DST) consisting of Branch Managers and Library Administrators. The DST develops and recommends guidelines and procedures around enforcement and safety on District properties. At the council's request, the DST also acts as one level of the appeals process to ensure that customers have a right to redress any trespass or restriction on their 1st Amendment Rights.
 - Implemented Progressive Discipline
 - Worked with Clark County Prosecutors Office and LVCCLD legal counsel to determine acceptable lengths of trespass and procedures
 - Provides training on incident reporting
- At Clark County and other branches where we experience elevated customer interactions, security cameras are deployed to monitor activities throughout the building and critical areas of the parking lot.
- Library staff have formal PIC and incident report training, do a great job paying attention to their surroundings, address ongoing issues, and complete reports when addressing issues.
- Clark County Library and other branches have hosted PIC meetings with their **Metro Area Command** to discuss how to best interact and when to call for emergency assistance. West Charleston Library is the only branch that works directly with the State or University Police since it is on the campus of the College of Southern Nevada.
- Clark County Library falls within Clark County jurisdiction, so we use **FixIt Clark County** to report issues

<u>https://www.clarkcountynv.gov/residents/fixit_clark_county.php</u> in and around the library that need correcting.

- If they are on the property, persons can be trespassed for repeat offenses but we generally follow progressive discipline guidelines to comply with enforcement.
- o Behaviors that merit immediate trespass for any customer include:
 - Battery of employees and/or Library Customers
 - Stealing, destroying, intentionally damaging or vandalizing materials, facilities, or property
 - Harassing, hostile, or threatening language/behavior
 - Sexual misconduct
 - Urinating/defecating in public
 - Actively using or selling illegal drugs
 - Violence
- LVCCLD Safety Manager routinely performs Active Shooter, Emergency Lockdown, and MOAB (Management of Aggressive Behaviors) at Clark County Library
- Clark County Library provides **programming** with NV Legal Services and Legal Aid Center of Southern NV around what to do receiving an eviction notice.
- When we ask a person to leave for nuisance odors, we direct folks to

 Housing assistance <u>https://helphopehome.org/get-help/</u>.

- The Courtyard Resource Center <u>https://www.lasvegasnevada.gov/Residents/Neighborhood-</u> <u>Services/Homeless-Services</u>, and
- Homeless Services-Salvation Army https://www.salvationarmysouthernnevada.org/homeless-services
- o Nevada Homeless Alliance https://nevadahomelessalliance.org/
- o 211 and http://nvcareercenter.org/covid-19/index.html among others.
- We refer customers needing help finding work and those underemployed to our **Workforce Connect-OneStop Liaison** inside the Clark County Library. This Liaison helps them get an appointment or directs them to additional public services.
- Computer lab assistants and Adult Services staff regularly help customers with

 Employment Applications
 - Resume & Cover Letters
 - o IdMe process
 - Connecting to government and housing resources
- We make referrals to the **Nevada Career Center** <u>http://nvcareercenter.org/covid-19/index.html</u>.
- **Teen Zone improvements** have occurred at Whitney Library, West Las Vegas Library, and Rainbow Library. This gives teens a place to be, learn, and express themselves positively.
- West Las Vegas, we began an expansion of the computer lab from a 24computer to a 36-computer station lab to prevent idle wait times and remove friction points.
- Several branches are **consolidating service points** from two to one at Adult and Customer Service or Adult and Youth Services. This allows staff to:
 - o Help cover desks
 - Participate in programming
 - Work on the floor directly with our customers.

This solution also provides additional eyes on the ground in places they were not previously.

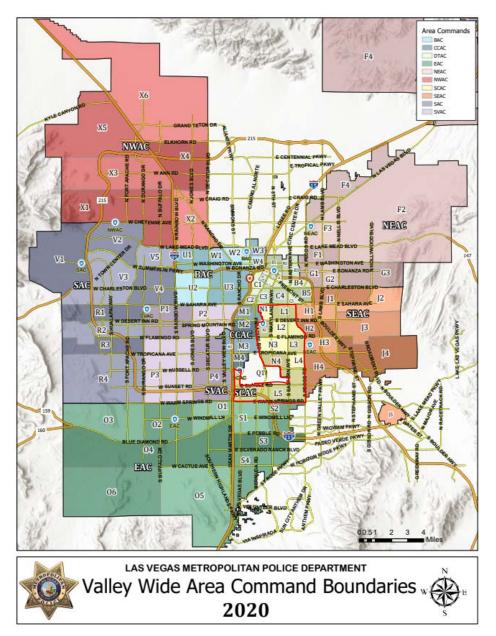

- Security Officers (SO) at Clark County are scheduled on the property overnight, before hours, and after staff leave in the evening.
- SO's are available at <u>all</u> buildings to escort customers and staff in and out of the library or performance center.
 - They perform routine rounds and various intervals and their rounds include interior and exterior.
 - During rounds, they enforce Library Rules of Conduct and work with Persons In Charge (PICs) to identify any safety issues or concerns.
 - SO's routinely back up our PICs and takeover situations that become unstable or violent.
 - They routinely call for emergency services when needed and
 - Do a great job in keeping both staff and customers safe.

- Clark County Library Branch Manager will be setting up PIC meetings with
 - Metro SCAC Lieutenant & Officers
 - o Nevada Homeless Alliance
 - o PIC visits to Courtyard Resource Center

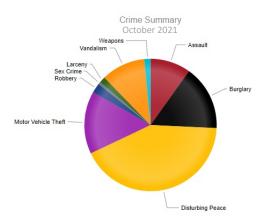

Las Vegas Metropolitan Police Department's South Central Area Command (SCAC) serves Clark County Library located in their "N3" area.

Stephen Connell Bureau Commander South Central Area Command 4860 S. Las Vegas Boulevard Las Vegas, Nevada 89119 702-828-8272 SCAC@LVMPD.COM

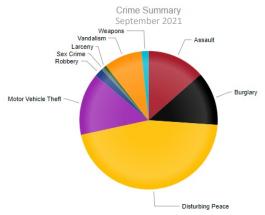

The SCAC service area includes a northern boundary of **E. Sahara** and a southern boundary of **Warm Springs**. **Pecos Rd.** is the Eastern boundary, the western boundaries are **Paradise Rd**. on the North section, and **Dean Martin** on the South Section and excludes the University of Southern Nevada, which is under the jurisdiction of the State of NV, including the Robot Lab across the street from the Clark County Library.

Motor Vehicle Theft, Robbery, Sex Crimes, Theft / Larceny, Vandalism, Vehicle Break-In / Theft, Weapons. Disturbing the Peace was the most reported crime.

September 1-30, there were **949 crimes** reported in the same area with Disturbing the Peace again being the highest reported crime.

For **October**, a 2-mile radius around the Clark County Library (E. Sahara Ave to E. Russel & S. Las Vegas Blvd. to S. Pecos) Metro responded to **970 reports of crime** including but not limited to Arson, Assault, Burglary, Disturbing the Peace, Drugs / Alcohol Violations, DUI, Fraud, Homicide,

For the Week ending 11-12-2021, **LVMPD** reported **43,585** total crimes **YTD**. **SCAC** reported **4,479 YTD** or 10.3% of all crimes reported in areas served by Metro. Nowhere in their Statistical Crime Briefing do they detail a person's housing status.

LVMPD does have an active **Homeless Outreach Team** <u>https://www.lvmpd.com/en-us/PartnersWithTheCommunity/Pages/HomelessOutreachTeam.aspx</u> with "resources and knowledge not readily available to patrol officers and tasked with bringing these resources and training to unhoused citizens within Clark County. We work with this group by contacting our Area Command, SCAC, who works closely with the Homeless Outreach Team. When possible we also share resource cards and brochures when asking a customer to leave until they can correct situations like odor, clothing, etc. that we get from the Salvation Armey and the Courtyard Homeless Resource Center within the Corridor of Hope at 314 Foremaster Lane.

https://www.lvmpd.com/en-

<u>us/AreaCommands/SouthCentral/Pages/ServiceRequest.aspx</u> reminds us not to make a Service Requests to SCAC in place of calling 911 for emergency assistance or to report disturbances, nuisances, or crimes where the suspects have already left the scene. In these instances, they recommend we contact 311 for any non-emergency police assistance requests. ** Clark County Library is outside the City of Las Vegas so we contact County Code Enforcement or use the **Click-it and Fix-it Clark County** to file the report directly online.

Powerful Platforms

INDIE AUTHOR DAYS PROMOTION + NEW "WRITERS' ROOM" WEBPAGE

- Indie Author Days is a writing competition sponsored by our new vendor BiblioBoard (who we partnered with for the Dan Rather promotion in July.) There will be more coming in 2022 on this "virtual community bulletin board," but November is their Indie Author Days event, when they announce the national and regional winners of the competition.
- **BAM** worked with Community Engagement Director **Matt McNally** and Programming Specialist **Julie Okabayashi** to promote Indie Author Days on November 12-13, with viewing parties held at Clark County Library and Laughlin Library. The event was a series of streaming panel discussions, giving aspiring writer tips on how to prepare for and enter the competition next April.
- Senior Digital Projects Associate Paula Loop worked with Branding & Marketing Director Betsy Ward and Matt McNally to create a new dedicated webpage called The Writers' Room, which provides information, resources, tools, tutorials, and a sense of community for selfpublished writers, authors, poets, graphic novelists, and anyone who loves filing an empty page with their original work. You can view the page, <u>HERE</u>.
- The landing page went live on November 8 and through November 18 has compiled **370** unique Pageviews, with an Average Dwell Time of 2 min 51 sec.
 - **BAM** created dedicated ads to promote these events with placement in:
 - Black Image Magazine (November issue)
 - Las Vegas-Review Journal Half-page ad in the Thursday, November 11 edition
- The Indie Author Days and Writers' Room promotion was featured on the hero banner of the homepage and added to the relevant audience browse pages. Social media posts were scheduled throughout the month which linked back to the landing page.

GOOGLE ADWORDS GRANT UPDATE

- Google AdWords is Google's online advertising platform in which advertisers bid on popular keywords & search phrases, in order for their clickable text-based ads to appear in Google's search results. The Foundation and the Library District have received a grant from Google for up to \$10,000 per month in Google Adwords credits.
- Nonprofit Megaphone is the Library District's agency of record that works with Google to manage our monthly grant and helps us to optimize designated "keywords" that are selected from Library District and Foundation priorities promoted on LVCCLD.org.
- These monthly Google Grant campaigns help to increase our overall Google SEO and drives more qualified traffic to our website. When people conduct relevant searches on Google that incorporate our designated "keywords," the Google AdWords campaign entices them to click on Library District search results, thereby increasing the opportunity for discovery of our programs and services.
- The Google Studio Data Report updates in real-time for all our current Google Grant Google AdWords campaigns and can be viewed <u>HERE</u>.
 - Conversation tracking for priority Google AdWords campaigns (October 1-31):
 - 80 people found our art galleries landing page by clicking on ad
 - 60 people found the library District's TeenTober events through our ads
 - 44 people found the Library District Foundation page when searching for "volunteer opportunities"
 - 13 calls to branches directly from ads
 - The search term "free music" and keywords surrounding downloadable movies and ebooks continue to rank very high. This is great to see as these keywords continue to be very popular and competitive to bid on.

SOCIAL MEDIA HIGHLIGHTS

 BAM received strong social media support from YouTube star Mikey Neumann to help promote his presentation at Sahara West Library on November 13. This demonstrates a powerful partnership as this booked performer used their social media platform to share our dedicated posts with their followers which helped this event reach more relevant audiences.

• The **Neon Museum** mentioned the Library District in their social media posts to help promote the new gallery exhibit on display at West Las Vegas Library. This is another example of a powerful partnership that helps to increase the potential reach on social media to more targeted audiences to promote our events/programs/galleries.

| 2019 | +13% | +84% | +31% | -22% |

Notes: We continued to increase our new subscribers, but our key analytics on this platform were down month over month. This is due to the dedicated Facebook Ad campaign that BAM ran to help promote Library Card Sign-Up Month initiative. With that having concluded, our analytics returned to our normal numbers, but were encouraged to see were up year-over-year from the same time period. This can be attributed to the Library District's TeenTober program, where BAM received more submitted photos from branches of their events, programs, Take & Make Kits and displays.

Notes: All of our key analytics on this platform were up over last month, which can be attributed to the Library District's TeenTober program launch, which allowed us to share more fresh & relevant content on this social media platform. We were also able to drive more links clicks, which lead back to priority landing pages on LVCCLD.org. On this social media platform, we continue to share links to those landing pages, along with sharing local and national resources, Library District powerful partnerships, as well as timely staff lists created by the Library District's website content committee.

Notes: Our key analytics were up from last month with the exception of total impressions. The increase in user engagement was due in part to the launch of our TeenTober promotion, which included a lot of great branch-submitted photos of their events, programs, Take & Make Kits and displays. The #13YAReadsofHalloween photos BAM worked on with the Clark County Library Best Buy Teen Tech Center staff were also well received on this platform. BAM is looking forward to utilizing our IGTV feed again for sharing longer-form video content such as online storytimes, STEAM programming, and "live" performances with programming partners, which will further help increase our monthly user engagement on this social media platform.

Notes: We are continuing to gain new subscribers month-over-month and we also increased our total channel watch time, but our year-over-year analytics are down. This can be attributed to the fact that we have not been able to post any new virtual programming content since July 2020. We are confident that our monthly analytics will significantly increase once virtual programming resumes and we can start sharing new content consistently as YouTube's algorithm prioritizes fresh content.

Website Analytics - External Users (Outside of the Library District)

Notes: We saw slight dips in total visitors to the website and average user dwell time, but we did increase our average number of user sessions, which means we are bringing users back to the website more often.

Please note that BAM is unable to provide previous FY analytics as they reflect a systemwide security change to Google's provided analytics. This period also contains skewed data during the COVID-19 pandemic when the Library District was closed for extended periods of time and more residents were at home. BAM will be using the current FY reporting as the new website analytics baseline moving forward.

MEMORANDUM

To: Board of Trustees through Kelvin Watson, Executive Director

From: Floresto Cabias, Chief Financial Officer

Date: December 1, 2021

Subject: November 2021 Budget Status Report

Enclosed are the budget status reports for November 2021. General fund revenues indicate that 45% of budgeted revenue has been collected.

Property Tax Revenues

As compared to November 2020, the District collected 9% more in property taxes. Property taxes are assessed on a fiscal year basis beginning on July 1. Property tax revenue collections have been stable throughout the prior fiscal year and are performing well so far in the current fiscal year. Total property taxes for FY 2022 are budgeted to increase by 8%.

Consolidated Sales Tax Revenues (CTX)

The CTX shows 30% collected so far this fiscal year. The State of Nevada distributes CTX collections two months after the month of collection.

The most recent CTX received by the District on November 30, 2021, represents CTX from the month of September 2021. The \$2.5M collected is 22% higher than the amount collected for the same period last fiscal year. In September 2020, the Southern Nevada economy was still recovering from business closures just months before. The significant CTX increase in September 2021 is the result of a fuller economic reopening, improved employment, and pent-up demand, among other factors. Although the CTX percentage increases are declining, overall collections this fiscal year is significantly outperforming expectations.

Based on existing economic factors, staff expects CTX to total approximately \$26.5M-\$27.5M for FY 2022, which is a 10%-14% increase from the amount actually collected for FY 2021 (\$24.2M). With restrictions lifting towards the end of FY 2021 through the beginning of FY 2022, this projection appears reasonable, barring any significant changes affecting consumer spending in the future. The impact of the most recent COVID-19 variant is unknown at this time. See charts below showing historical CTX trends.

Expenditures

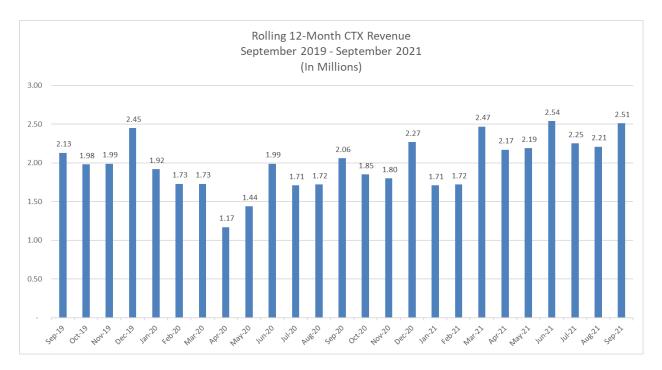

General Fund expenditures indicate that 33% of the allocated budget has been spent. Staff expects total expenditure savings of approximately \$6M for FY 2022. These savings are due to reduced personnel costs resulting from the Voluntary Employee Separation Program (VESP) and filling positions based on operational needs, which includes modifying positions to best serve the Playbook 2026. Supplies and services expenditures are also expected to provide savings compared to the budget due to conservative spending practices throughout the pandemic.

Savings in expenditures will contribute to a higher ending fund balance.

Ending Fund Balance

FY 2022 General Fund ending fund balance is budgeted at \$14M, after a transfer of \$19M to the Capital Projects Fund. With the additional CTX expected and expenditure savings discussed above, the projected ending fund balance is approximately \$27.6M, a surplus of \$13.6M compared to the budget. Financial Services will account for the FY 2022 projected surplus when preparing the FY 2023 budget.

Staff will be available to answer any questions that you may have.
