Trustee Ortiz expressed his concerns about the continued increase in incidents at the Clark County Library. He explained that the area has become ground zero for most complaints and increase in violent incidents. Trustee Ortiz wanted to know if the District has had any meetings with any of the stakeholders, university people, and social services who are there. Leo Segura, Library Operations Director reported that the Branch Manager, Robbin Gaebler has been in contact with the ClickIt and FixIt Clark County routinely to address some of the issues. He also reported that there is security in the parking lot and close relations with the Robot Lab University that is across the street. Leo Segura says that Metro and Clark County are also involved with the Library District. He reported that the numbers last month were lower than the previous month. Trustee Ortiz suggest that John Vino, General Services Director, the police department, and neighborhood services from the County meet to see how to increase involvement. Leo Segura agrees that a meeting can be set up again as done in the past. Counsel Gerald Welt suggested getting a homeless advocacy group involved in the conversation.

Trustee Ortiz asked if there was a typo on the statistics report on page 24 with the percentage increase at Meadows Library. Leo Segura responded that the percentage is correct and that reasoning is because the branch was mostly closed last year. Trustee Ortiz had concerns about the huge drop in services- gate count and circulation. He suggested that Leo Segura have a conversation with Branch managers to see what can be done to increase the numbers. Leo Segura explained that after his statistics meeting with the Urban Libraries Council, other libraries are down at least 50 percent or more in circulation and gate count. He explained that the Library District is seeing a steady increase with the increase of programs and outreach events. As a part of the Playbook plan, the managers are analyzing different ways to increase traffic.

Chair Wilson asked Trustee Ortiz if there was anything in the Redline that stood out. Trustee Ortiz responded that nothing stands out timing is important. Chair Wilson also asked what the next big concern is. Trustee Ortiz responded that architectural drawings are needed to go for funding for New Market Tax Credits to determine how much steel is needed to purchase because the price of steel is escalating. Trustee Ortiz also agrees that the community workshops on page 91 of the General Services Report, scheduled for November 29th and December 15 are good timeframes. Trustee Rogers added that he has had several conversations with Councilman Crear’s office of Ward 5, and he has agreed to help the Library District by promoting the event to the community. John Vino explained that the Library District wanted to be sure there was an agreement between the District and the City before announcing to the community.

Trustee Waugh questioned the year-to-date voluntary separations that is already at a third of employees leaving and wanted to know if the exit reports explained the reasoning of why the employees are choosing to leave the District? Trustee Waugh also asked if there was an employee climate survey to survey the staff.

Jeff Serpico, Human Resources Director explained that there is a plan to do an engagement survey after changes are made. Jeff Serpico will have exit information pulled and forwarded to Director Watson.

(Item VIII.B.1)

There was no opposition and the motion carried. (Opinion letter attached)

Discussion and possible Board action authorizing the Executive Director to execute a three-year renewal with BiblioCommons, with the option of two one-year renewals, subject to final review by Counsel, for the purpose of extending the Library District’s current website software, which provides online public access to the materials catalog and events calendar.
(Item VIII.B.2.)

Betsy Ward, Branding and Marketing Director reported that for the new contract, the increase year-over-year from the current contract will be roughly 2.5 percent for the first year, 3 percent for years two and three and 3.25 percent for the optional, additional four and five years if the District decides to go with that.

Trustee Ortiz asked Counsel Gerald Welt if he had the opportunity to review the contract. Counsel Welt responded yes, that the contract is basically the original contract, and this is a follow up because this contract is continuing the base contract that was already approved. Trustee Ortiz asked for clarity on the number of years for the contract. Counsel Welt explained that this contract is for a three-year renewal with two one-year options after, which will be a five-year contract. Betsy Ward explained that the contract will start in December.

Trustee Ortiz begin to explain that he did not feel comfortable in the total value of the contract and was not clear on what the Board was voting on. He question if the amount was half a million, $200 million, or $1,000. Chair Wilson explained that it is $270,000 a year that averages out for three years, which doesn’t include the fourth and fifth year extensions if the District opts for them. Floresto Cabias calculated that it would be around $800,000. Counsel Welt explained that the Board would only be voting on the three-year contract now plus the ability to go forward for the additional two year if desired. The option to extend will come back to the Board for approval.

Trustee Ortiz made a motion to authorize the Executive Director to execute a three-year renewal, with the option of two one-year renewals, subject to final review by Counsel, to continue the BiblioCommons Software subscription, training, support, and upgrades with an estimated
value of $810,000 for three years subject to renewals. Trustee Waugh second the motion.

There was no opposition and the motion carried.
