- Stop motion animation,
- Painting
- Homework
- & More!

Sunday Funday

Here at the BBTTC we love games and gaming! Play games, reskin an old favorite, check out Scratch to build your own, or if you're feeling particularly ambitious give Unity a try!

Mindful Mondays

Taking care of our mental health is important! Join us mindful based activities to help clear your mind and invigorate you for the week.

Movie Madness!

We will be playing a different movie and teens can dissect them with staff. This is not your average movie review!

STEAM Team Project

We work better together. Bring a friend or make a friend and learn a new skill in the Teen Tech Center. We will be working on programs aimed to get you thinking while having fun and maybe a mess too!

Anime YAY!

Every first Friday, come geek out with fellow anime geeks. Debate the pros and cons of your favorite heroes, maybe a craft, and of course watch some anime!

Poetry Promise: Women of Poetry

There is a poet in all of us so stop by the Best Buy Teen Tech Center and try new styles of poetry that you may not have known before!
Ages 12-17 only. While supplies last.

GSA: Gay-Straight Alliance

Every month, our partner from Henderson Equality Center comes out to facilitate discussions, activities, and projects based around equality. Whether part of the community or ally, we offer a safe space to be themselves.

Demo Day!

Take advantage of our amazing technology and learn something new. After you learn on it, create something great!

Music Studio Classes: (ages 12-17 only)

Music Production 101: Learn how to create loops and beats in our recording studio using one of our many software like Garage band, Pro Tools, or Logic. Great for beginners or teens who need a refresher. Feel free to stop by any time and learn with Gabe who can help any teen at any level.

Advanced Music Production: Do you already create your own music, but you need someone to elevate you to the next level? Work with our music producer, Justin, as he takes your music to that professional level of production. Learn new skills and new software as well as the business side of promoting your creation. No matter your musical style, we've got you. Call to reserve your space today!

Art Lab

National Pig Day: Did you know pigs are actually clean creatures and very smart? We are centering the day on projects about these interesting hooved animals!

Read & Draw: To kick off national reading month, we will be playing an audiobook: Crank by Ellen Hopkins. As you listen doodle what comes to mind. Join us for this easy breezy activity and who knows, you might just want to read more!

Tie Dye: We are dying socks as we give a hat tip to the ancient celebration of spring.
While supplies last.

Spirograph & Geometric Art: Join us as we talk about and create geometric art, a major form of art that can be found throughout the world.

Video Games in the Teen Lounge!
Stop by to play Xbox or Switch
Tuesday-Friday!
