Introductory Section

December 13, 2024

To the Board of Trustees and Citizens of the City of Las Vegas and Clark County, Nevada:

Nevada Revised Statutes (NRS) 354.624(6) require the Las Vegas-Clark County Library District (the District) to submit, within six months of the close of each fiscal year, a “complete set” of financial statements presented in accordance with accounting principles generally accepted in the United States (GAAP) and audited by a firm of independent certified public accountants in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Pursuant to that requirement, the Annual Comprehensive Financial Report for the District as of and for the year ended June 30, 2024, is hereby submitted.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, District management has established a comprehensive internal control framework that is designed, among other things, both to protect the District's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the District's financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this Annual Comprehensive Financial Report is complete and reliable in all material respects.

The District's basic financial statements were audited by HintonBurdick, PLLC. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the District are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used, and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements are fairly presented in all material respects in conformity with GAAP. The Independent Auditors' Report on Financial Statements and Supplementary Information is presented as the first component of the financial section of this report. In addition, the Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards is presented as the last component of the financial section of this report.

The independent audit of the District's basic financial statements was also designed to meet the more narrowly focused, federally mandated "Single Audit" requirements of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the District's internal controls and compliance with regulatory and other legal requirements, with emphasis on administration of federal awards. The Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in accordance with the Uniform Guidance is presented as the first component of the single audit section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in a specified form called Management's Discussion and Analysis (MD&A). This letter of transmittal is

designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors on Financial Statements and Supplementary Information.

Profile of the District

The District was created in 1985 by the Nevada State Legislature to form a single taxing entity for the City of Las Vegas (the City) and the Clark County Library District. It replaced the Clark County Library District and has a contractual arrangement with the City to operate the City's libraries. The District serves all persons living in the 7,927 square miles of Clark County (the County) except for those living in the incorporated City of North Las Vegas and those living in areas served by the Henderson and Boulder City Library Districts.

The District is governed by a ten-member Board of Trustees (the Board), with five members appointed by the Clark County Board of Commissioners (the County Commission) and five appointed by the Las Vegas City Council (the City Council), all with staggered four-year terms of office and a two-term limit. There is no potential for the District to provide a financial benefit to, or impose a financial burden on, the City or the County. The Board is an independent policy body that is separate from the County Commission and the City Council. The Board appoints an Executive Director for the District and has exclusive policy and budget authority for the programs, activities and level of services provided by the District. The County serves in a ministerial capacity as the taxing authority, even though the District is fiscally independent of the County.

The District's Board may propose the issuance of general obligation bonds for the purpose of acquiring, constructing, or improving buildings and other real property to be used for District purposes or for purchasing books, materials, or equipment for newly constructed libraries. However, the Board cannot issue bonds or any other form of indebtedness unless a public hearing on the proposal is first held before the County Commission and the City Council. After such public hearing, the County Commission and the City Council may each adopt a resolution that supports or opposes in whole or in part the District's proposal and transmit the resolution to the Clark County Debt Management Commission for consideration. If the Clark County Debt Management Commission approves, the question of issuing the bonds must be submitted to the electorate of the District for a vote. If a majority of the electors voting on the question favors the proposal, the Board shall issue the bonds as general obligations of the District pursuant to the provisions of the Local Government Securities Law. Bonds issued for purchasing books, materials, or equipment for newly constructed libraries must be redeemed within five years after issuance and bonds for construction must be redeemed within a maximum of 20 years after issuance.

The District adopts an annual budget, which serves as the foundation for financial planning and control. Prior to April 15, the District submits the tentative budget for the next fiscal year, commencing on July 1, to the Department of Taxation of the State of Nevada (the State). The City Council and the County Commission have the ability to reject the tentative budget prior to its submission to the State. The District is required to hold a public hearing on the proposed budget, conducted on the Thursday following the third Monday in May, and to adopt a final budget on or before June 1. The appropriate budget controls are required, by NRS, to be exercised at the function level. The District's Executive Director is authorized to transfer budget amounts between functions within a fund; however, Board approval is required for all transfers between funds.

The District provides broadly decentralized services through large branch libraries rather than the traditional smaller branches. Fourteen libraries are distributed over an area of 436 square miles in the Las Vegas metropolitan area. Eleven libraries serve the vast area of the County, outside the metropolitan Las Vegas area, providing library service to largely rural towns and communities over an area of 7,491 square miles.

Factors Affecting Financial Condition

Local Economy

The State's economy, up until the Great Depression of 1929, relied solely on railroading, mining and ranching. To counter the effects of the Great Depression, the State Legislature passed legislation legalizing gambling in 1931. Today, the 7,927 square mile area served by the District enjoys a multi-faceted economy with industries that include professional services, transportation, construction, banking and finance, manufacturing, hospitality, sports, recreation, and gaming. While the resort and gaming industries (tourism) remain the mainstay of the local economy, industrial parks, retirement communities, professional sports, distribution centers and light manufacturing provide a balance to the service intensity of the local economy.

Previous recessionary effects of the national economy were not as traumatic on Las Vegas as they were on other metropolitan areas until the "Great Recession" as it is now known. During the Great Recession, the Las Vegas metropolitan area saw large layoffs due to drops in business income in its major local industries, which resulted in an unusually high rate of unemployment of 14%. Since recovering from the Great Recession, the County's unemployment rate decreased to 3.7% in June 2019. However, during the first quarter of 2020, the outbreak of the COVID-19 pandemic caused significant volatility in U.S. and international economies and has led to a global health emergency. The unemployment rate reached 34% before the economy began reopening. In June 2025, the County's unemployment rate was 5.5%.

Housing prices continue to increase in the Las Vegas valley due to historically low interest rates, low inventory, and increased demand caused by unforeseen conditions due to the COVID-19 pandemic. For example, employees working from home sought larger properties in a state with no income taxes, making locations such as Las Vegas attractive. Although the District's property taxes appear to be minimally affected so far, the future impact of the COVID-19 pandemic continues to be unknown and evolving.

The intergovernmental shared revenues, primarily consolidated (sales and use) taxes, are highly dependent on tourism and the COVID-19 pandemic and the closure of businesses in Nevada had a significant adverse impact on these tax revenues. To mitigate the COVID-19 pandemic impact, the District took immediate action to maintain financial stability, as discussed in Note 4 to the basic financial statements. The ultimate long-term impact on the District's financial position and changes therein cannot be determined at this time, but may be substantial.

Long-term Financial Planning

In an effort to maintain the sustainability of District operations, the District completes a five-year to a fifteen-year financial forecast annually to evaluate the impact of changing economic conditions, revenue and expenditure trends, and the impact of new proposed economic strategies. District management uses the forecasts to assist in negotiations with collective bargaining units, manage vacant positions, and evaluate possible strategies as the District strives to maintain fiscal integrity through sound financial policies. The COVID-19 pandemic significantly impacted short-term forecasts. Although the District has successfully navigated the economic challenges so far, its financial planning continues to serve as a useful tool, ensuring the District's financial health and future growth.

The District will continue to closely monitor and evaluate the local economy regarding housing prices and sales, consumer spending, and the local travel and tourism industry. Based on the outcome of these factors, the District will make additional adjustments to its budgeted expenditures.

Other efforts of sustainability include maintaining a higher ending fund balance, higher than the healthy financial cushion of 5% to 10% ratio of the ending fund balance to the general fund expenditures. The implementation of the above-mentioned measures reflects the District's conservative and sound stewardship of resources during volatile economic periods.

Collections for the District's secondary funding source, intergovernmental shared revenues, comprised primarily of consolidated taxes, decreased significantly since the beginning of the COVID-19 pandemic due to business closures. However, the decreases have stabilized due to federal relief efforts that contributed to continued consumer spending. Accordingly, the District will continue to adjust its operating expenditures to match revised revenue forecasts.

It is the District's policy that "one time" resource inflows not be used for operating purposes. Accordingly, the District normally maintains a general fund balance between 10% and 15% of operating expenditures, but increased this balance above 20% to weather the ongoing volatile economic conditions.

The District has established capital related programs in the capital projects fund to finance the acquisition, replacement or construction of major capital projects and facilities. This fund includes nine programs to accumulate available resources that will be appropriated in subsequent budget years. These programs are the Library Services Platform Replacement, Technology Replacements and Upgrades, Building Repair and Maintenance, Capital Construction, Library Materials, Vehicle Purchase and Replacement, Furniture Purchase and Replacement, Financial Services, and Community Engagement/Programming and Venue Services. Due to the COVID-19 pandemic, nonessential capital projects were put on hold and other capital projects were reduced to the minimum necessary to maintain operations.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) has awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for the year ended June 30, 2023, This was the 33rd consecutive year that the District received this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has also received the GFOA's Distinguished Budget Presentation award for 6 consecutive years and has submitted its budget for fiscal year 2025 to determine its eligibility for an award.

Preparation of this ACFR could not have been accomplished without the efforts and dedication of the staff of the Financial Services and Branding & Marketing Departments. A special thanks to the firm of HintonBurdick, PLLC, for its timely and professional service to the District as its independent auditors.

We wish to commend the members of the District's Board of Trustees for their continued interest in conducting the financial operations of the District in a responsible and prudent manner.

Respectfully submitted,

Independent Auditors' Report

The Executive Director and Board of Trustees
Las Vegas-Clark County Library District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Las Vegas-Clark County Library District (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued or when applicable, one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance;

and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in total OPEB liability and related ratio, the schedule of statutorily required OPEB contribution information, the schedule of the proportionate share of the collective net pension liability information, the schedule of proportionate share of statutorily required pension contribution information, budgetary comparison information, and notes to the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining statements and individual major and nonmajor fund budgetary comparison schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining statements and individual major and nonmajor fund budgetary comparison schedules and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information, as listed in the table of contents, comprises the introductory section and statistical section, but does not include the financial statements and our auditors' report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. Based on the work performed, we did not find any uncorrected material misstatements of the other information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

Compensated absences	8,416,365	7,866,620	549,745	6.99%
Total postemployment benefits other than pensions liability	1,208,708	1,268,230	(59,522)	(4.69)%
Net pension liability	61,174,909	55,700,597	5,474,312	9.83%
Net position	231,131,819	215,035,218	16,096,601	7.49%
Charges for services	1,381,067	1,343,646	37,421	2.79%
Property taxes	63,888,827	58,262,466	5,626,361	9.66%
Intergovernmental shared revenues, unrestricted	31,181,823	30,171,434	1,010,389	3.35%
Total expenses	89,296,927	75,776,438	13,520,489	17.84%
Change in net position	16,096,601	19,392,461	(3,295,860)	(17.00)%

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (*e.g.*, uncollected taxes and earned, but unused vacation leave).

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Management's Discussion and Analysis (Continued) **For the Year Ended June 30, 2024**

Both of the government-wide financial statements present the governmental activities of the District, which are principally supported by property taxes and intergovernmental revenues.

The government-wide financial statements can be found in the "Basic Financial Statements" section of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain accounting control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are categorized as governmental funds. The District does not currently maintain any proprietary or fiduciary funds.

The fund financial statements can be found in the "Basic Financial Statements" section of this report.

Governmental Funds

Governmental funds are essentially used to account for the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at fiscal year end. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the balance sheet and the statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eight governmental funds. Information is presented separately in the balance sheet and in the statement of revenues, expenditures and changes in fund balances for the general fund, the Las Vegas-Clark County Library District Foundation special revenue fund, QALICB special revenue fund and the capital projects fund, all of which are considered to be major funds. Data from the remaining non-major governmental funds is combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements and schedules elsewhere in this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to basic financial statements can be found in the "Basic Financial Statements" section of this report.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2024

Required and Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The District adopts an annual appropriated budget for its general fund and a budgetary comparison schedule has been provided to demonstrate the District's compliance with this budget. This section also includes certain information related to the District's net pension liability and other postemployment benefit obligation.

The required supplementary information can be found immediately following the notes to the basic financial statements in this report.

The combining statements and schedules, referred to earlier in connection with the non-major governmental funds, can be found immediately following the required supplementary information in this report.

Government-wide Financial Analysis

Summary Statement of Net Position		
	Governmental Activities and Total Primary Government	
	2024	2023
		(Restated)

Unrestricted	25,608,818	33,115,637
Total net position	\$ 231,131,819	\$ 215,035,218

The District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$231,131,819 (net position).

By far, the largest portion of the District's net position (58.40%) is its investment in capital assets (land, buildings, improvements, library media materials, and furniture and equipment), less any related debt used to acquire these assets, which are used to provide services to citizens; consequently, these assets are not available for future expenditures. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2024

Resources that are subject to external restrictions on how they may be used represent an additional 30.52% of the District's total net position.

Summary Statement of Activities		
	Governmental Activities and Total Primary Government	
	2024	2023 (Restated)
Revenues		
Program revenues		
Charges for services	\$ 1,381,067	\$ 1,343,646
Operating grants and contributions	3,197,149	2,212,408
General revenues		
Property taxes	63,888,827	58,262,466
Intergovernmental shared revenues, unrestricted	31,181,823	30,171,434
Investment income	4,895,946	1,586,278
Gain on disposal of capital	-	348,756
Miscellaneous	848,716	1,243,911
Total revenues	<u>105,393,528</u>	<u>95,168,899</u>
Expenses		
Culture and recreation	88,832,198	75,472,928
Debt service, interest	464,729	303,510
Total expenses	<u>89,296,927</u>	<u>75,776,438</u>
Change in net position	16,096,601	19,392,461
Net position, beginning of year	215,035,218	195,642,757
Net position, end of year	<u>\$ 231,131,819</u>	<u>\$ 215,035,218</u>

Property taxes increased \$5,626,361 or 9.66% and intergovernmental shared revenues, unrestricted, increased \$1,010,389 or 3.35% compared to the prior year. The increase in property taxes in Southern Nevada is the result of increased property values, primarily due to lower supply and higher demand. The increase in intergovernmental shared revenues, unrestricted, was the result of growth in consumer spending.

Culture and recreation expenses increased \$13,359,270 or 17.70% from the prior year. This change can be primarily attributed to increases in salaries and wages (due to increased pay rates), compensated absences (due to increased accruals and pay rates), and pension expense (due to changes in the actuarial valuation), which were partially offset by normal fluctuations in day-to-day operational activities and the District continuing its conservative spending practices that are designed to provide fiscal stability, but not to adversely affect the provision of library services.

Governmental Fund Financial Analysis

As noted earlier, the District uses fund accounting to better ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at fiscal year end.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2024

At year end, the District's governmental funds reported combined ending fund balances of \$146,204,689, an increase of \$42,054,162 (40.38%) from the prior year. Approximately 19.24% (\$28,134,295) of the total current year fund balance constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of the combined ending fund balances is not available for spending because it has already been restricted or assigned to 1) pay debt service, 2) the acquisition, construction or improvement of capital assets, 3) grant and other programs, or 4) generate income to pay for the purchase of library media materials.

The general fund is the chief operating fund of the District. At year end, the fund balance of the general fund was \$28,477,786. As a measure of the general fund's liquidity, it may be useful to compare fund balance to total fund expenditures. Fund balance represents 35.83% of total general fund expenditures.

The fund balance of the District's general fund increased by \$4,954,588 (21.06%) during the current fiscal year. The increase in fund balance is primarily due to increases in property taxes, intergovernmental shared revenues and investment income, which was offset by increased salaries and wages, compensated absences and pension expense. These increases and decreases result from the activity discussed above in the Government-wide Financial Analysis section.

The Las Vegas-Clark County Library District Foundation fund has an ending fund balance of \$44,907,012, an increase of \$23,141,531 from prior year, due to the receipt of a one-time \$23,268,000 contribution and normal fluctuations in day-to-day operational activities.

The QALICB fund has an ending fund balance of \$24,375,342, an increase of \$23,115,316 from prior year, due to 1) the formation on January 23, 2024, of West Las Vegas QALICB, Inc., 2) the receipt of debt issuance proceeds \$32,440,000, 3) the payment of \$7,741,620 in capital outlay costs, and 4) normal fluctuations in day-to-day operational activities.

The capital projects fund has a total ending fund balance of \$46,774,424, a decrease of \$9,187,173 from the previous fiscal year. This decrease was primarily due the payment of a one-time \$23,268,000 contribution, which was offset by transfers from the general fund and proceeds from the disposal of fixed assets.

The aggregate non-major funds have a combined total fund balance of \$1,670,125, a decrease of \$1,230,126 from prior year, due to the reclassification of the QALICB fund from a non-major fund to a major fund (Note 2) and normal fluctuations in day-to-day operational activities. The combined total fund balance for aggregate non-major funds is either restricted, committed or assigned for specific purposes.

General Fund Budgetary Highlights

Summary of Selected General Fund Budget and Actual Information				
	Original Budget	Final Budget	Actual	Variance
Total Revenues	\$ 95,133,780	\$ 95,133,780	\$ 99,331,017	\$ 4,197,237
Total Expenditures	87,902,800	87,902,800	79,488,708	8,414,092
Total Fund Balance	12,896,045	12,896,045	28,477,786	15,581,741

During the year:

Revenues were higher than the final budgetary estimate primarily due to increases in property taxes and intergovernmental shared revenues, unrestricted.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2024

Expenditures were less than the final budgetary estimate as a result of the District's conservative spending practices and normal fluctuation in day-to-day operational activities.

Additional information on the District's general fund budget can be found in Note 2 to the basic financial statements and the required supplementary information immediately following the notes to the basic financial statements in this report.

Capital Assets

	Governmental Activities and Total Primary Government	
	2024	2023
Construction in progress	\$ 7,741,620	\$ 1,360,082
Land	5,706,578	5,706,578
Buildings	96,700,201	99,925,852
Improvements	127,446	209,230
Library media materials	79,876,284	73,821,332
Furniture and equipment	3,555,408	3,370,761
Right-to-use leased building	60,646	76,467
Right-to-use subscription software	807,177	135,988
	<u>\$ 194,575,360</u>	<u>\$ 184,606,290</u>

Major capital asset events during the fiscal year included the following:

Construction in progress costs of \$6,388,288 were incurred for a new West Las Vegas library branch.

Furniture and equipment additions were purchased at a cost of \$1,008,285.

The District purchased library media materials, at a cost of \$12,118,115.

Right-to-use subscription software was added at a cost of \$1,112,280.

Depreciation and amortization expense for the fiscal year was \$10,643,638.

Additional information on the District's capital assets can be found in Notes 1 and 3 to the basic financial statements in this report.

Additional information on the District's long-term liabilities can be found in Notes 1 and 3 to the basic financial statements in this report.

Economic Factors and Next Year's Budgets and Rates

In 2005, the Nevada State Legislature passed a law to provide property tax relief to all citizens that provides a partial abatement of taxes by applying a 3% cap on the increase in property tax for the owner's primary residence. Only one property may be selected as a primary residence. Some rental dwellings that meet the low-income rent limits may also qualify for a 3% cap on the increase in property taxes. An 8% cap also applies to the increase in taxes for certain other types of property. Property tax revenue is 64.27% of total general fund revenues.

The District's second largest revenue, intergovernmental shared revenues, composed primarily of sales and use taxes, comprise 31.39% of total general fund revenues.

From time-to-time, the State enters into tax abatement agreements with various tax paying entities, which are expected to continue to have an insignificant impact on the District's revenues. Additional information about tax abatement agreements affecting the District is included in Note 2 to the basic financial statements.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Management's Discussion and Analysis (Continued) **For the Year Ended June 30, 2024**

As discussed in Note 4 to the basic financial statements, the District implemented several cost saving strategies designed to ensure financial sustainability in response to the COVID-19 pandemic. These strategies continue to successfully provide the District with additional resources to withstand any subsequent financial downturns in the near term. Combined with slowly improving economic conditions in Southern Nevada, these measures allowed the District to resume transferring funds to the Capital Projects Fund, build reserves, and continue spending on critical projects. However, the future impact of the COVID-19 pandemic is unknown and continually evolving. The ultimate long-term impact on the District's financial position and changes therein cannot be determined at this time, but may be substantial.

All of these factors were considered in preparing the District's budget for the 2025 fiscal year.

Requests for Information

The accompanying financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District's Financial Services Department, 7060 West Windmill Lane, Las Vegas, Nevada 89113.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities - Governmental Activities For the Year Ended June 30, 2024

Change in fund balances, governmental funds \$ 42,054,162

Amounts reported in the statement of net activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital assets is capitalized and depreciated over their estimated useful lives.

Expenditures for capital and right-to-use assets	\$ 21,980,300	
Less current year depreciation and amortization	(10,643,638)	
Gain (loss) on disposal of capital and right-to-use assets	(14,260)	
Proceeds from sale of capital and right-to-use assets	<u>(1,353,332)</u>	9,969,070

Revenues in the statement of activities, which do not provide current financial resources are not reported as revenues in governmental funds.

Change in unavailable revenue, property taxes	50,076	
Change in unavailable revenue, investment income	<u>(63,605)</u>	(13,529)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases liabilities in the statement of net position.

Repayment of debt principal is an expenditure in governmental funds, but the repayment reduces liabilities in the statement of net position. This is the amount by which debt issued exceeded repayments.

Subscription software obligations incurred	(1,112,279)	
Debt and lease obligations incurred	(32,440,000)	
Debt, lease and subscription software principal repayments	<u>443,669</u>	(33,108,610)

Some expenses reported in the statement of activities do not require the use of current financial resources; and therefore, are not reported as expenditures in governmental funds.

Change in compensated absences payable and related balances	(549,745)	
Change in net pension liability and related balances	<u>59,522</u>	
	(2,569,803)	(3,060,026)

Some expenditures reported in governmental funds benefit a future period; and therefore, are not reported in the statement of activities.

Change in prepaid items	282,893	
Change in inventory	<u>(27,359)</u>	255,534

Net position \$ 16,096,601

Notes to Basic Financial Statements

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements For the Year Ended June 30, 2024

Note 1. Summary of Significant Accounting Policies

The financial statements of the Las Vegas-Clark County Library District (the District) have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the more significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Reporting Entity

The District was established in 1985 under the provisions of Chapter 379 of the Nevada Revised Statutes (NRS) and serves all persons living in Clark County, Nevada (the County), except for those living in the incorporated area of North Las Vegas and the library districts of Henderson and Boulder City, Nevada. The District is governed by a Board of Trustees (the Board), which consists of ten members, five appointed by the Board of County Commissioners and five appointed by the Las Vegas City Council, all of whom have staggered terms of office and may be removed for cause at any time. The accompanying basic financial statements present the financial position of the District and its blended component units for which the District is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the District's operations.

Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended, defines the reporting entity as the primary government and those component units for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the organization's governing board and either the ability of the primary government to impose its will on the organization or the possibility that the organization will provide a financial benefit to or impose a financial burden on the primary government. In addition to financial accountability, component units can be other organizations in which the economic resources received or held by that organization are entirely or almost entirely for the direct benefit of the primary government, the primary government is entitled to or has the ability to otherwise access a majority of the economic resources received or held by that organization and the resources to which the primary government is entitled or has the ability to otherwise access are significant to the primary government.

The District has complied with GASB Statement No. 14, as amended, by examining its position relative to the County and the City of Las Vegas (the City) and determined that there are no requirements that would cause the basic financial statements of the District to be included in either of the entities' annual comprehensive financial reports (ACFR). The financial information of the component units, discussed below, is blended with the District's financial information and presented in the District's financial reports because of the significance of their operations and financial relationship with the District, District management has operational (accounting) responsibility for these entities or because the District's Board appoints a voting majority of the component unit's governing body.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Blended Component Units

The Las Vegas-Clark County Library District Foundation, Inc. (the Foundation), a Nevada Non-Profit Corporation, was formed in 2002 for the exclusive purpose of providing the District with aid, support, and assistance in the promotion, growth, and improvement of the District.

During the years ended June 30, 2018 and 2024, the Foundation entered into several transactions in order to make additional funds available to it through the New Markets Tax Credit (NMTC) Program. The NMTC Program permits taxpayers to claim, over a seven-year period, a credit against federal income taxes for Qualified Equity Investments (QEIs) in designated Community Development Entities (CDEs). These designated CDEs must use substantially all of the proceeds to make Qualified Low-Income Community Investments (QLICs).

The QALICB fund is comprised of East Las Vegas QALICB, Inc. (ELV), Mesquite QALICB, Inc. (MQ) and West Las Vegas QALICB, Inc. (WLV), which were formed as Nevada Non-Profit Corporations on June 28, 2017, October 12, 2017 and January 23, 2024, respectively, for the exclusive benefit of the District.

The purpose of the QALICB fund is to hold title to property, complete construction of the East Las Vegas, Mesquite and West Las Vegas libraries facilities, and lease said property and buildings to the District. The entities within the QALICB fund are operated in such a way that they qualify as a Qualified Active Low-Income Community Business (QALICB) under the definition of the NMTC Program and Internal Revenue Code (IRC) §45(d).

The Foundation, ELV, MQ and WLV each prepare separate stand-alone financial statements that can be obtained from the District's Financial Services Department, 7060 West Windmill Lane, Las Vegas, Nevada, 89113.

Basic Financial Statements

The government-wide financial statements include a statement of net position and a statement of activities and present consolidated information for the District's activities, which are comprised solely of governmental activities, accounted for in governmental fund types. The District does not currently maintain any proprietary or fiduciary fund types. The effect of interfund activity has been removed from these statements.

Included in the statement of net position are capital assets and long-term liabilities, which includes, but is not limited to, obligations for general obligation bonds, notes, postemployment benefits, pensions and compensated absences. Net position is classified as 1) net investment in capital assets, 2) restricted, or 3) unrestricted.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions, which are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues not restricted for use by a particular function or segment are reported as general revenues.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Separate fund financial statements are provided with each major individual governmental fund reported in a separate column. Fund financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balances. Schedules are presented to reconcile fund balances presented in the fund financial statements to net position presented in the government-wide financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal year end.

The primary revenue sources, which have been treated as susceptible to accrual by the District, are property taxes, intergovernmental consolidated taxes, grants, and interest. All other revenue sources are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, obligations for pensions and other postemployment benefits, and claims and judgments are recorded only when payment is due.

The District classifies and reports the following as major governmental funds:

General Fund – The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Las Vegas-Clark County Library District Foundation Fund – This special revenue fund accounts for contributions that are to be used to provide the District with aid, support, and assistance in the promotion, growth, and improvement of the District.

QALICB Fund – This special revenue fund accounts for loan proceeds and lease income to be used for the acquisition and leasing of real or personal property that is subject to certain restrictions and limitations in furtherance of the District's operations.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Capital Projects Fund - Accounts for financial resources that are restricted, committed or assigned to the improvement, acquisition or construction of capital assets.

Additionally, the District reports the following non-major governmental fund types:

Special Revenue Funds – The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specific purposes (other than capital projects and debt service).

Debt Service Fund – The debt service fund is used to account for the accumulation of resources for and the payment of general long-term debt principal, interest and related costs.

Permanent Fund – The permanent fund accounts for financial resources that are legally restricted to the extent that only earnings, and not principal, may be used to support the District's programs.

The District has no nongovernmental fund types.

Assets and Liabilities

Cash, Cash Equivalents and Investments

The District's cash equivalents are considered to be short-term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at fair value regardless of the length of time remaining to maturity.

Restricted Assets

Financial resources that are legally restricted to pay debt service, finance construction projects or to the extent that only earnings, and not principal, may be used are reported as restricted assets in both the government-wide and fund financial statements.

Receivables, Payables and Unavailable or Unearned Revenues

Upon the certification of tax rates by the State of Nevada (the State) Tax Commission, the County Commission levies the tax rate for the fiscal period beginning with the succeeding July 1. Effective upon the tax levy on July 1 each year, a perpetual lien is recorded against the property assessed until the tax and any penalty charges and interest, which may accrue thereon, are paid. The County Assessor assesses all real and personal property and the County Treasurer bills and collects the District's share of property taxes. Real property taxes are due on the third Monday in August of each year and may be paid in quarterly installments on or before the third Monday in August and first Mondays in October, January and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties and costs, together with interest from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien. The County Treasurer remits on a monthly basis current and delinquent property tax collections to the District.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Notes receivables are due to the Foundation as a result of transactions related to the NMTC Program. The first note in the face amount of \$11,335,600, bears interest at 1.0% per annum, is payable in annual interest only payments through July 26, 2024, and annual principal and interest payments thereafter through July 25, 2045. The second note in the face amount of \$6,646,000, bears interest at 1.474424% per annum, is payable in quarterly interest only payments through September 15, 2024, and quarterly principal and interest payments thereafter through December 19, 2043. The third note in the face amount of \$23,268,000, bears interest at 1.020183% per annum, is payable in quarterly interest only payments through March 15, 2031, and quarterly principal and interest payments thereafter through March 15, 2057.

During the course of operations, individual funds engage in numerous transactions with one another for goods provided or services rendered. The resulting payables and receivables that are outstanding at year end are reported as due to/from other funds. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

Receivables that are not expected to be collected within 60 days of year end are classified as unavailable revenue in the fund financial statements, rather than current revenue, since the asset is not available to satisfy current obligations.

Unearned revenues arise when the District receives resources before it has a legal claim to them such as when property taxes for the following tax year are received before year end. Other receivables are shown net of an allowance for uncollectible amounts.

Prepaid Items and Inventory

Certain payments to vendors reflect costs applicable to future periods. In the governmental fund financial statements, these payments are recorded as expenditures when purchased rather than when consumed and are reported as prepaid items in the entity-wide financial statements.

Inventory is comprised solely of books and other library materials, which are available for sale in the Foundation's Book Stores. In the governmental fund financial statements, inventory is recorded as expenditures when purchased rather than when consumed and is reported as inventory in the entity-wide financial statements.

Capital Assets

Capital assets are reported only in the government-wide financial statements. These assets include land, buildings, library media materials, furniture and equipment, and construction in progress. All purchased capital assets are valued at cost where historical records are available and, where no historical records exist, at estimated historical cost. Donated capital assets are valued at their estimated acquisition value on the date received. The District has a capitalization threshold of \$5,000.

The District reports the following types of right-to-use capital assets:

Leased right-to-use capital assets – Under the lease terms, the District makes monthly payments in exchange for control of, and the right-to-use, a specified asset. This lease expires in April 2028. The assets and related liabilities are recognized at the present value of the expected future minimum lease payments to be paid during the lease term using the District's incremental borrowing rate as of the required implementation date or subsequent lease inception date.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued)

For the Year Ended June 30, 2024

Subscription software right-to-use capital assets – Under the contract agreement terms, the District makes monthly payments in exchange for control of, and the right-to-use, a specified asset. These contracts expire at various times through June 2027. The assets and related liabilities are recognized at the present value of the expected future minimum contract payments to be paid during the contract term using the District's incremental borrowing rate as of the required implementation date or subsequent contract inception date.

The District's incremental borrowing rate currently ranges from 3.25% to 8.25%.

The cost of normal maintenance and repairs that do not significantly increase the functionality of the assets or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as the projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Years
Buildings	5-50
Improvements	5-50
Library media materials	5
Furniture and equipment	5-20
Right-to-use leased building	7-8
Right-to-use subscription software	3-8

Collection

The District's collection (Note 2), was acquired through a combination of purchases and contributions and is not recognized as an asset on the statement of net position. Furthermore, revenue for contributed collection items is not reflected on the statement of revenues, expenditures and changes in fund balances.

Compensated Absences

It is the District's policy to permit employees to accumulate earned vacation and sick leave benefits that would be paid to them upon separation from District service if not previously taken. Accrued vacation and sick leave are reported in the government-wide financial statements. A liability for compensated absences is reported in the fund financial statements only to the extent that payment is due, for example, as a result of employee resignations and retirements prior to year-end. Expenditures for compensated absences are recognized by the applicable fund when paid.

Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities, net of unamortized bond premiums in the statement of net position. Bond premiums are deferred and amortized over the life of the related bonds using the effective interest method.

In the fund financial statements, bond premiums and issuance costs are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Multiple-Employer, Cost-Sharing Defined Benefit Pension Plan

The District uses the same basis used in the Public Employees Retirement System of Nevada's (PERS) Annual Comprehensive Financial Report, for reporting its proportionate share of the PERS collective net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, including information related to PERS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized by PERS when due and payable in accordance with the benefit terms. PERS investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

The District recognizes benefit payments when due and payable in accordance with the benefit terms for the purpose of measuring its total OPEB liability, deferred outflows of resources and deferred inflow of resources related to OPEB and OPEB expense. OPEB investments are reported at estimated fair value.

Deferred Outflows and Inflows of Resources

Deferred outflows of resources represent a consumption of net assets that applies to future periods; and therefore, will not be recognized as an outflow of resources (expense/expenditure) until then. Amounts related to the multiple-employer, cost-sharing defined benefit pension plan are reported as deferred outflows of resources.

Deferred inflows of resources represent a consumption of net assets that applies to future periods; and therefore, will not be recognized as an inflow of resources (revenue) until that time. Amounts related to the multiple-employer, cost-sharing defined benefit pension plan are reported as deferred inflows of resources.

Deferred Compensation Plan

In addition to the postemployment benefits other than pension (OPEB) plan, discussed above, the District offers its employees a deferred compensation (postemployment benefit) plan created in accordance with Internal Revenue Code Section 457. This plan, which is available to all District employees, permits participants to defer a portion of their salary/wages until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

The assets and a liability related to this plan are not reported in the government-wide or fund financial statements, because:

The deferred compensation plan is administered by an independent third-party and the District does not appoint any members of the deferred compensation plan's governing body or otherwise exercise any control over it.

Contributions are comprised solely of employee discretionary amounts. The District does not contribute to the deferred compensation plan.

Each employee determines if they want to participate, how much they want to contribute (which may be changed at any time) and controls investment decisions by selecting from a range of investment options offered by the third-party administrator.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

The assets of this plan are held in trust outside the control of the District. Therefore, the assets of this plan are not considered assets of the District and are not subject to the claims of the District's general creditors.

Net Position

In the government-wide financial statements, net position is reported as 1) net investment in capital assets, 2) restricted, or 3) unrestricted.

Net position is reported as restricted when constraints have been placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Fund Balance

Governmental fund balances are classified and reported as follows:

Nonspendable fund balances include items that cannot be spent. This includes amounts that are not in a spendable form (for example, inventories and prepaid items) and amounts that are legally or contractually required to remain intact, such as a permanent fund principal balance.

Restricted fund balances have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balances can be used only for specific purposes pursuant to constraints imposed by formal action (resolution) of the Board, the District's highest level of decision-making authority. These constraints remain binding unless removed or changed in the same manner used to create the constraints.

Assigned fund balances include amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. Such intent is expressed by the Board or appropriately authorized officials. The District's Chief Financial Officer has been authorized by the Board in the budget approval process to make all fund balance assignments. Constraints imposed on the use of assigned fund balances can be removed or changed without formal Board action. For governmental funds, other than the general fund, this is the classification for residual amounts that are not nonspendable, restricted or committed.

Unassigned fund balance is the classification used by the general fund for residual amounts not included in the four categories described above. The general fund is the only fund that reports a positive unassigned fund balance.

Prioritization and Use of Available Resources

When restricted resources and other resources (*i.e.*, committed, assigned and unassigned) can be used for the same purposes, it is the District's policy to use restricted resources first. Furthermore, when committed, assigned and unassigned resources can be used for the same purpose, it is the District's policy to use committed resources first, assigned second, and unassigned last.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Use of Estimates

Timely preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, these estimates and assumptions may require revision in future years. Significant estimates that may change materially within the next year include the 1) useful lives of capital assets, 2) net pension liability, 3) total postemployment benefits other than pensions liability, and 4) deferred outflows and inflows of resources.

Note 2. Stewardship and Accountability

Budgets and Budgetary Accounting

The District adopts annual budgets for all funds except for the Foundation and QALICB funds, which are not budgeted. All budget augmentations made during the current year were as prescribed by law. All budgets are adopted on a basis consistent with GAAP as applied to government units and used by the District for financial reporting.

The District uses the following procedures to establish, modify, and control budgetary data:

Prior to April 15, the District submits the tentative budget for the next fiscal year, commencing on July 1, to the State Department of Taxation. The Las Vegas City Council and the Board of County Commissioners have the ability to reject the tentative budget prior to its submission to the State. The budget, as submitted, contains the proposed expenditures and the means of financing them.

The State Department of Taxation notifies the District of its acceptance of the tentative budget.

A public hearing is conducted on the Thursday after the third Monday in May.

After all changes have been noted and the hearings closed, the Board adopts the budget on or before June 1.

The NRS require budget controls to be exercised at the function level. The District's Executive Director and Chief Financial Officer are authorized to transfer budget amounts between functions within a fund. However, the Board's approval is required for all transfers between funds.

Budget augmentations are accomplished through formal Board action.

The District cannot expend any money, incur any liability or enter into any contract, which by its terms involves the expenditure of money in excess of the amount appropriated for a given function, except for bond payments, short-term financing payments and any other long-term contracts expressly authorized by law.

All unencumbered appropriations lapse at the fiscal year end, except for amounts appropriated for specific capital projects or Federal and State grant expenditures.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) For the Year Ended June 30, 2024

Collection

The District's collection is comprised of a permanent art collection that is held for educational, research, and exhibition purposes. Each item is cataloged, preserved, and cared for, and activities verifying their existence and assessing their condition are performed continuously. The collection is subject to a District procedure that requires proceeds from their sales, if any, to be used to acquire other collection items.

Tax Abatements

All tax abatement agreements/programs, entered into by the State of Nevada, have been summarized, by type of agreement/program and the gross, accrual basis reduction of the District's taxes are aggregated as follows:

Agreement/program description	NRS 360.753 - Partial abatement of certain taxes imposed on aircraft, components of aircraft and other personal property used for certain purposes related to aircraft
Amount abated during the current year	\$ 5,164
Specific tax being abated	Property taxes and/or sales and use taxes
Agreement/program description	NRS 360.754 - Partial abatement of certain taxes imposed on new or expanded data center
Amount abated during the current year	\$ 311,391
Specific tax being abated	Personal property taxes and/or sales and use taxes
Agreement/program description	NRS 701A.370 - Partial abatement of one or more of property and local sales and use taxes imposed on renewable energy facilities
Amount abated during the current year	\$ 35,090
Specific tax being abated	Property taxes and/or sales and use taxes
Agreement/program description	NRS 360.750 - Partial abatement of certain taxes imposed on new or expanded businesses
Amount abated during the current year	\$ 16,496
Specific tax being abated	Property taxes and/or sales and use taxes

Accounting Changes

During the year changes within the financial reporting entity resulted in adjustments to and restatements of beginning fund balance, as follows:

	Fund Balance, Beginning of Year, as Previously Reported	Change from Non-major Fund to Major Fund	Fund Balance, Beginning of Year, as Adjusted
Major governmental funds			
General fund	\$ 23,523,198	\$ -	\$ 23,523,198
Special revenue funds			
Las Vegas-Clark County Library District Foundation	21,765,481	-	21,765,481
QALICB	-	1,260,026	1,260,026

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) For the Year Ended June 30, 2024

Change in Accounting Principles

During the year, the District implemented GASB issued Statement No. 101, *Compensated Absences*, which resulted in adjustments to and restatements of beginning net position, as follows:

	Net Position, Beginning of Year, as Previously Reported	Change in Accounting Principle	Net Position, Beginning of Year, as Adjusted
Governmental Activities	<u>\$ 215,564,394</u>	<u>\$ (529,176)</u>	<u>\$ 215,035,218</u>

New Accounting Pronouncements

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*, effective for years beginning after June 15, 2024. This statement provides guidance on the assessment, accounting and financial reporting for certain risks to provide timely information regarding certain risk concentrations or constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. Management has not yet completed its assessment of this statement.

In April 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*, effective for years beginning after June 15, 2025. This statement provides updated guidance for the reporting of management's discussion and analysis, unusual or infrequent items, major component units and budgetary comparison information. Management has not yet completed its assessment of this statement.

Management has completed its assessment of all other new, but not yet effective GASB statements and either 1) determined that the statement will not have a material effect on the District's financial position or changes therein, or 2) early adopted and implemented the statement.

Note 3. Detailed Notes on All Funds

Cash, Cash Equivalents and Investments

The District has a formal investment policy that is designed to ensure conformity with the NRS and to limit exposure to investment risks as described in the following paragraphs.

Allowable District investments include obligations of the U.S. Treasury and U.S. agencies, not to exceed ten years maturity; negotiable notes or short-term negotiable bonds issued by other local governments of the State; bankers' acceptances eligible for rediscount with Federal Reserve Banks, not to exceed 180 days maturity and 20% of total investments; commercial paper having an "A-1" rating or equivalent, not to exceed 270 days maturity and 20% of total investments; and money market mutual funds invested only in federal government agency securities with an "AAA" rating or equivalent or in repurchase agreements fully collateralized by such securities.

When investing monies, the District is required to comply with the NRS. District monies must be deposited with federally insured banks. The District is authorized to use demand accounts, time accounts and certificates of deposit. The NRS do not specifically require collateral for demand deposits, but do specify that collateral for time deposits may be of the same type as those described for permissible State investments. Permissible State investments are similar to allowable District

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

investments, described above, except that some State investments are for longer terms and include securities issued by municipalities outside of the State.

At year end, the District's carrying amount of deposits was \$57,187,058, and the bank balance was \$52,335,990. The Federal Depository Insurance Corporation (FDIC) covered \$250,000 of the bank balance at fiscal year end. However, the District's bank balance is collateralized with securities held by the pledging bank's trust department or agent in the District's name up to 102% of the average bank balance in excess of the FDIC limit. The District often carries cash and cash equivalents on deposit with financial institutions in excess of federally-insured limits, and the risk of losses related to such concentrations, as a result of continuing economic instability, is not subject to estimation at this time.

The District manages its custodial credit risk related to deposits by participating in the State's Pooled Collateral Program, which was created during the 2003 legislative session to monitor collateral maintained by depositories for local government agency deposits. This program provides for centralized processing and management of all pledging and maintenance of collateral by the State Treasurer's Office, rather than each local agency and eliminates the need for the District to establish separate custodial agreements with each financial institution.

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. In accordance with the District's formal investment policy, the District manages its exposure to interest rate risk by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

GAAP defines fair value, establishes a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement level within the hierarchy is based on the lowest level of any input that is deemed significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

At year end, the estimated fair value of the District's investments was based on:

Level 1 – Quoted market prices provided by recognized broker dealers.

Level 2 – A matrix pricing model, used by recognized broker dealers, which maximizes the use of observable inputs for similar securities or, for certificates of deposit, amortized cost.

Level 3 – Unobservable inputs including, when applicable, the proportionate share of pooled investments.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

At year end, the District had the following investments:

	Reported Amount (Fair Value)	Less than 1 year	1 to 5 years
Level 1			
U.S. Treasury securities	\$ 41,997,677	\$ 24,115,184	\$ 17,882,493
Corporate notes and bonds	661,824	362,153	299,671
Level 2			
U.S. Agency securities	7,076,974	3,868,572	3,208,402
Certificates of deposit	164,953	164,953	-
Total cash equivalents and investments	<u>\$ 49,901,428</u>	<u>\$ 28,510,862</u>	<u>\$ 21,390,566</u>

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment and concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. This is measured by the assignment of a rating by a nationally recognized statistical organization. The District's formal investment policy mitigates this risk by limiting investments to the safest types of securities, pre-qualifying entities (e.g., financial institutions, intermediaries, advisors) and diversifying its investment portfolio. At year end, all of the District's investments were rated "AAA" or "AA." However, it should be noted that the requirement to disclose credit ratings does not apply to debt securities of the United States government, or obligations of United States government agencies that are explicitly guaranteed by the United States government.

Custodial credit risk related to investments is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

NRS help protect against loss resulting from credit and custodial risk by setting limits on the maximum percentage that can be invested in a single issuer. The District places no limits on the amount that can be invested in any one issuer beyond that stipulated by the NRS.

Investments in any type of investment that represent 5% or more of total investments at year end, were as follows:

	Percentage of Portfolio
U.S. Treasury securities	84.2%
U.S. Agency securities	14.2%

Non-major Governmental Funds	15,739	-
	<u>\$ 6,462,990</u>	<u>\$ 6,462,990</u>

Interfund Transfers

Transfers of revenues collected in various funds are used to finance various programs and expenditures accounted for in other funds in accordance with budgetary authorization or legal requirements. Interfund transfers during the year were as follows:

<u>Transfer In Fund</u>	<u>Transfer Out Fund</u>	<u>Amount</u>
Capital Projects, Capital Projects Fund	General Fund	<u>\$ 16,000,000</u>

Long-term Liabilities

The District issues general obligation bonds and notes payable to provide funds for the improvement, acquisition or construction of major capital assets. These constitute general obligations of the District, and the full faith and credit of the District are pledged for the payment of principal and interest.

The District's notes payable include put and call agreements, which if exercised would result in the acceleration of the maturity dates related to such notes. Certain of these put and call agreements were exercised in July 2024 and others are expected to be exercised in December 2024. As a result, the related note principal is recognized as due within one year.

Compensated absences, total postemployment benefits other than pensions liability and net pension liability are normally liquidated by the general fund.

Debt Covenants and Legal Debt Margin

Certain long-term liabilities are subject to restrictive debt covenants with which management believes the District to be in compliance.

The amount of general obligation, long-term debt that can be incurred by the District is limited by NRS. The total outstanding long-term debt principal during a year is limited to no more than 10% of the assessed value of taxable property. Management believes the District to be in compliance with this limitation.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Commitments

Governmental fund commitments outstanding for construction and construction-related services at year end totaled approximately \$38,000,000 and \$5,698,000 for non-construction related services.

Note 4. Other Information

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains a risk management program to assess coverage of potential risks of loss. Under this program, the District participates in workers' compensation and unemployment programs provided by the State. For all other risks, the District purchases insurance coverage subject to nominal deductibles. Settled claims and awards have not exceeded this commercial coverage in any of the past three fiscal years.

The Nevada economy continues to suffer and the COVID-19 pandemic fallout continues to impact the economic activity and government finances. The financial outlook for Nevada's economy has been improving, but is projected to experience a slower recovery than the rest of the country due to its relatively large dependence on tourism. Intergovernmental shared revenues, composed primarily of sales and use taxes, comprise 31.4% of general fund revenues compared to 32.9% in the prior year.

At year end, housing prices continued to increase due to low inventory and increased demand. As employees continue to work from home, many are looking for larger properties in a state with no income taxes, making locations such as the Las Vegas metropolitan area attractive. Property taxes comprise 64.3% of general fund revenues compared to 63.5% in the prior year.

During the COVID-19 pandemic, the District implemented several cost saving strategies designed to ensure financial sustainability in response to the COVID-19 pandemic. These strategies continue to successfully provide the District with additional resources to withstand any subsequent financial downturns in the near term. Combined with slowly improving economic conditions in Southern Nevada, these measures allowed the District to continue transferring funds to the Capital Projects Fund, building reserves, and spending on critical projects.

Although the economy appears to be recovering, the future impact of the COVID-19 pandemic is unknown and continually evolving. The ultimate long-term impact on the District's financial position and changes therein cannot be determined at this time, but may be substantial.

Contingent Liabilities

In the ordinary course of its operations, claims are filed against the District. It is the opinion of management that these claims will not result in any material adverse effect on the District's financial statements.

The District does not accrue for estimated future legal and defense costs, if any, to be incurred in connection with outstanding or threatened litigation and other disputed matters, but rather records such period costs when the services are rendered.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Postemployment Benefits Other Than Pensions (OPEB)

As discussed in Note 1, the District offers its employees a deferred compensation (postemployment benefit) plan created in accordance with Internal Revenue Code Section 457. This plan, which is available to all District employees, permits participants to defer a portion of their salary/wages until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency. The assets and liabilities related to this deferred compensation plan are not reported by the District because the plan is administered by an independent third-party and the District does not control the independent third-party or appoint any members of its governing body (either directly or indirectly). In addition, contributions are comprised solely of employee discretionary contributions and each employee controls their own investment decisions.

In accordance with NRS, the District also provides other postemployment benefits to retirees by participating in the State's Public Employee Benefit Plan (PEBP), an agent, multiple-employer defined benefit plan administered by a ten-member governing board appointed by the Governor, including an Executive Officer who directs the program and serves at the pleasure of the Board. The PEBP provides medical, prescription, dental and vision benefits to retirees.

The District does not provide any other postemployment benefits (either directly or indirectly).

The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing:

Public Employee Benefit Plan
901 South Stewart Street, Suite 101
Carson City, NV 89701

The PEBP eligibility and subsidy requirements are governed by NRS and can only be amended through legislation. For a retiree to participate in the PEBP, the retiree must be receiving a PERS benefit. PERS eligibility varies by employee group and benefit type, as discussed elsewhere herein. In 2008, NRS were amended. As a result of this amendment, the number of retirees for whom the District is obligated to provide OPEB is limited to eligible employees who retired prior to September 1, 2008.

Retirees and former employees who were eligible and elected the PEBP coverage are entitled to a subsidy toward their premium cost based on their years of covered employment under Nevada PERS. This subsidy is shared on a pro-rata basis by the employers for which the retiree has worked and earned PERS service credit. As a result, the District is required to provide a subsidy, based on years of service for its retirees and former employees that are enrolled in the PEBP. The State Legislature changes the benefit subsidies from time to time; and although, the monthly subsidy continues to be based on years of credited service under PERS, the level differs for pre-Medicare and Medicare eligible retirees. The subsidy ends at the earlier of the retiree's death or the date he or she discontinues coverage. In the current fiscal year, the District paid a subsidy that ranged from \$10 to \$919 per person, per month, and totaled \$82,032 for the year.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

The District's total OPEB obligation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Actuarial valuation date	July 1, 2024
Measurement date	June 30, 2024
Discount rate	
Beginning of year	4.0%
End of year	4.1%
Actuarial cost method	Entry age normal, level percent of pay
Total retirees	
Beginning of year	32
End of year	31
Average retiree age	
Beginning of year	77.4 years
End of year	78.4 years
Projected pay increase *	
Projected trend on payments to PEBP	7.0% per annum, decreasing 0.25% per year to an ultimate rate of 4.5%
Mortality rates	Society of Actuaries Pub-2010 Public Retirement Plans Headcount-Weighted General Mortality Tables using Scale MP-2021 Full Generational Improvement

* PEBP is a closed plan; and therefore, there are no current District employees covered by the PEBP.

There were no changes in OPEB benefit terms that affected the measurement of the District's total OPEB liability during the current year.

At year end, the District's total OPEB obligation sensitivity to changes in the discount rate and healthcare cost trend rate was as follows:

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
Total OPEB liability	\$ 1,321,150	\$ 1,208,708	\$ 1,111,126
	1% Decrease in Healthcare Trend Rate	Healthcare Trend Rate	1% Increase in Healthcare Trend Rate
Total OPEB liability	\$ 1,116,957	\$ 1,208,708	\$ 1,312,067

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) For the Year Ended June 30, 2024

At year end, changes in the District's total OPEB obligation were as follows:

Interest on total OPEB liability	\$ 49,089
Differences between expected and actual experience	16,003
Change in assumptions and other inputs	(42,582)
Service cost *	-
OPEB expense	22,510
Benefit payments (equal to employer contributions)	(82,032)
Net change in total OPEB liability	(59,522)
Total OPEB liability, beginning of year **	1,268,230
Total OPEB liability, end of year **	\$ 1,208,708

* PEBP is a closed plan; and therefore, there are no current District employees covered by the PEBP.

** The plan fiduciary net position at the beginning and end of year is zero; therefore, the District reports its total OPEB liability, rather than a net OPEB liability.

As the District's OPEB obligation includes only retirees, the average expected remaining service life is zero; and therefore, all changes in deferred outflows and inflows of resources are recognized in OPEB expense in the year incurred.

Multiple-Employer, Cost-Sharing Defined Benefit Pension Plan

The District's employees are covered by the Public Employees Retirement System of Nevada (PERS or the System), which was established by the Nevada Legislature in 1947, effective July 1, 1948, and is governed by the Public Employees Retirement Board (the PERS Board) whose seven members are appointed by the Governor. The District does not exercise any control over PERS.

PERS is a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both regular and police/fire members. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits, as required by NRS, are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the system on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.50% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this service time factor is 2.67% of average compensation. For plan members entering the System on or after January 1, 2010, there is a 2.50% service time factor for all years of service. Regular plan members entering the System on or after July 1, 2015 have a 2.25% service time factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Post-retirement increases are provided by authority of NRS 286.575 - .579 and are summarized as follows:

Retirees are eligible for annual benefit increases starting the fourth year of initially receiving benefits. Benefits are increased annually on the first day of the month following the anniversary of the commencement of benefits. The increases begin at 2% in years four, five, and six; increase to 3% in years seven, eight, and nine; 3.5% in years ten, eleven, and twelve; 4% for years thirteen and fourteen; and 5% in year fifteen and each year thereafter. If the benefit outpaces inflation in the period since retirement, the increase may be capped by a rolling three-year average of the Consumer Price Index (all items).

Retirees who enter the System on or after January 1, 2010, are eligible for annual benefit increases starting the fourth year of initially receiving benefits. Benefits are increased annually on the first day of the month following the anniversary of the commencement of benefits. The increases begin at 2% in years four, five, and six; increase to 3% in years seven, eight, and nine; 3.5% in years ten, eleven, and twelve; and 4% in year thirteen and each year thereafter. If the benefit outpaces inflation in the period since retirement, the increase may be capped by a rolling three-year average of the Consumer Price Index (all items).

Retirees who enter the System on or after July 1, 2015, are eligible for annual benefit increases starting the fourth year of initially receiving benefits. Benefits are increased annually on the first day of the month following the anniversary of the commencement of benefits. The increases begin at 2% in years four, five, and six; increase to 2.5% in years seven, eight, and nine; then adjust to the lesser of 3% or the increase, if any, in the Consumer Price Index (all items) for the preceding calendar year following the tenth year and every year thereafter.

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or at age 62 with 10 years of service, or any age with 30 years of service. Regular members entering the System on or after July 1, 2015, are eligible for retirement at age 65 with five years of service, or at age 62 with 10 years of service, or at age 55 with 30 years of service, or at any age with 33 1/3 years of service.

Police/Fire members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 55 with 10 years of service, at age 50 with 20 years of service, or at any age with 25 years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or at age 60 with 10 years of service, or at age 50 with 20 years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Members with the years of service necessary to receive a retirement benefit, but who have not reached the age for an unreduced benefit, may retire at any age with the benefit reduced for each year they are under the required age.

The normal ceiling limitation on monthly benefit allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

The authority for establishing and amending the obligation to make contributions and member contribution rates rests with NRS. New hires, in agencies which did not elect the employer-pay contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two alternative contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer pay contributions only.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) **For the Year Ended June 30, 2024**

Under the matching employee/employer contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions that have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. If EPC was elected, the member cannot convert to the Employee/Employer Contribution plan and cannot withdraw these contributions.

PERS's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

Although PERS receives an actuarial valuation on an annual basis for determining the prospective funding contribution rates required to fund the system on an actuarial reserve basis, contributions actually made are in accordance with the required rates established by NRS. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuarial funding method used is the entry age normal cost method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the year ended June 30, 2023, the statutory Employer/Employee matching rate was 15.50% for Regular and 22.75% for Police/Fire. The Employer-Pay Contribution (EPC) rate was 29.75% for Regular and 44.00% for Police/Fire.

For the year ended June 30, 2024, the required employer/employee match rates increased to 17.5% for regular and 25.75% for police/fire members. The EPC rates also increase to 33.5% for regular and 50.0% for police/fire members.

PERS issues a publicly available Annual Comprehensive Financial Report that includes financial statements and required supplemental information. This report is available on the PERS website, www.nvpers.org under publications.

PERS collective net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. For this purpose, certain actuarial valuation assumptions are stipulated by GASB and may vary from those used to determine the prospective funding contribution rates.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) For the Year Ended June 30, 2024

The total PERS pension liability was determined using the following actuarial assumptions (based on the results of an experience study for the period July 1, 2016, through June 30, 2020), applied to all periods included in the measurement:

Actuarial valuation date	June 30, 2023
Inflation rate	
Beginning of year	2.50%
End of year	2.50%
Payroll growth	
Regular employees	3.50%
Police/fire employees	3.50%
Investment rate of return	
Beginning of year	7.25%
End of year	7.25%
Discount rate	
Beginning of year	7.25%
End of year	7.25%
Productivity pay increase	0.50%
Actuarial cost method	Entry age normal, level percent of pay
Projected salary increases, including inflation and productivity increases	
Regular employees	4.20% to 9.10%, depending on service
Police/fire employees	4.60% to 14.50%, depending on service

Mortality rates and projected life expectancies are based on the following:

Pre-retirement, regular members – Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2020.

Pre-retirement, police/fire members – Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Table (separate tables for males and females). Projected generationally with the two-dimensional mortality improvement scale MP- 2020.

Healthy, regular members – Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females) with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional monthly improvement scale MP-2020.

Healthy, police/fire members – Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females) with rates increased by 30% for males and 5% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

Disabled, regular members – Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table (separate tables for males and females) with rates increased by 20% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP- 2020.

Disabled, police/fire members – Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table (separate tables for males and females) with rates increased by 30% for males and 10% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) For the Year Ended June 30, 2024

PERS's policies, which determine the investment portfolio target asset allocation, are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of PERS. The following target asset allocation policy was adopted as of June 30, 2023:

	Target Allocation	Long-term Geometric Expected Real Rate of Return *
U.S. stocks	42%	5.5%
International stocks	18%	5.5%
U.S. bonds	28%	0.75%
Private markets	12%	6.65%

* The long-term inflation assumption was 2.50%.

The discount rate used to measure the PERS total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members.

Based on that assumption, the PERS fiduciary net position at the measurement date was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the PERS total pension liability as of the measurement date.

The District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate was as follows:

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
Total OPEB liability	<u>\$ 95,197,137</u>	<u>\$ 61,174,909</u>	<u>\$ 33,096,578</u>

Detailed information about the PERS fiduciary net position is available in the PERS Annual Comprehensive Financial Report, available on the PERS website, www.nvpers.org under publications. The PERS fiduciary net position and additions to/deductions from it have been determined on the same basis used in the PERS Annual Comprehensive Financial Report. The PERS financial statements are prepared in accordance with GAAP applicable to governmental accounting for fiduciary funds. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District's proportionate share (amount) of the collective net pension liability was \$61,174,909, which represents 0.33515% of the collective net pension liability. Contributions for employer pay dates within the measurement year were used as the basis for determining each employer's proportionate share. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the measurement year.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Basic Financial Statements (Continued) For the Year Ended June 30, 2024

For the current year, the District's pension expense was (\$4,559,763) and its reported deferred outflows and inflows of resources related to pensions were as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 7,973,776	\$ -
Changes of assumptions or other inputs	5,733,253	-
Net difference between projected and actual earnings on investments	-	572,599
Changes in proportion and differences between actual contributions and proportionate share of contributions	3,173,418	2,949,037
Contributions made subsequent to the measurement date	4,828,907	-
	<u>\$ 21,709,354</u>	<u>\$ 3,521,636</u>

At June 30, 2023, the average expected remaining service life was 5.63 years.

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date totaling \$4,828,907 will be recognized as a reduction of the net pension liability in the subsequent year. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

For the Year Ended June 30,

2025	\$ 2,170,586
2026	1,911,879
2027	8,096,175
2028	885,635
2029	294,536
Thereafter	-

Changes in the District's net pension liability were as follows:

Net pension liability, beginning of year	\$ 55,700,597
Pension expense	7,571,384
Employer contributions	(3,879,882)
Change in net deferred outflows and inflows of resources	<u>1,782,810</u>
Net pension liability, end of year	<u>\$ 61,174,909</u>

At year end, payroll and benefits payable included \$1,030,217 payable to PERS, for the June required contributions and the accrued portion of July required contributions resulting from time working in June.

¹ Information for Postemployment Benefits Other Than Pensions is not available for years prior to the year ended June 30, 2018. As additional information becomes available, this schedule will ultimately present information for the ten most recent fiscal years.

² The Public Employee Benefit Program is a closed plan and the number of employees for whom the District is obligated to provide OPEB is limited to eligible employees who retired prior to September 1, 2008. Therefore, service cost and covered-employee payroll are both zero. As a result, the net OPEB liability as a percent of covered-employee payroll is not applicable.

³ Employer contributions are equal to the benefit payments made during the year; and therefore, the beginning and ending plan fiduciary net position is zero. As a result, the plan fiduciary net position as a percentage of the total OPEB liability is not applicable.

⁴ As of the end of the most current fiscal year presented, no assets had been placed in a qualifying irrevocable trust.

Notes to Required Supplementary Information For the Year Ended June 30, 2024

Note 1. Postemployment Benefits Other Than Pensions

For the current year, no significant events occurred that affected the measurement of the District's obligation for postemployment benefit other than pensions.

As of the most recent year end, no assets have been accumulated in a qualifying trust in which the assets contributed and earnings thereon are irrevocable, dedicated solely to providing postemployment benefits and legally protected from creditors.

Actuarial information for postemployment benefits other than pensions is not available for measurement years prior to the year ended June 30, 2018. As information becomes available information will be presented for the ten most recent fiscal years.

Additional information related to postemployment benefits other than pensions can be found in Note 4 to the basic financial statements.

Note 2. Multiple-Employer, Cost-Sharing Defined Benefit Pension Plan

For the current year, there were no changes in the pension benefit plan terms or significant changes to the actuarial methods and assumptions used in the actuarial valuation report dated June 30, 2023.

Additional pension plan information can be found in Note 4 to the basic financial statements.

Note 3. Budget Information

The accompanying required supplementary schedule of revenues, expenditures and changes in fund balance presents the original adopted budget, the final amended budget and actual general fund data. The original budget was adopted on a basis consistent with the Las Vegas-Clark County Library District's (the District) financial accounting policies and accounting principles generally accepted in the United States. All amendments made to the original budget were as prescribed by law and similarly consistent.

Additional budgetary information can be found in Note 2 to the basic financial statements.

¹ Overlapping tax rates are those that apply to property owners within the City of Boulder City. Not all special district overlapping tax rates apply to property owners whose property is located within the geographic boundaries of the special districts.

² The State of Nevada Constitution has a maximum rate limit of \$5 per \$100 assessed value and Nevada Revised Statutes further lowers the limit to a total combined tax rate of 3.64.

Compliance Information

**Independent Auditors' Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

The Executive Director and Board of Trustees
Las Vegas-Clark County Library District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Las Vegas-Clark County Library District (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 23, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies; and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Single Audit Information

**Independent Auditors' Report on
Compliance for Each Major Federal Program and
Report on Internal Control over Compliance
in Accordance with the Uniform Guidance**

The Executive Director and Board of Trustees
Las Vegas-Clark County Library District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Las Vegas-Clark County Library District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance, but is not absolute assurance; and therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

			<u>\$ -</u>	<u>\$ 2,384,186</u>

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2024

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Las Vegas-Clark County Library District (the District) under programs of the federal government. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to, and does not, present the financial position, or changes in net assets, or cash flows of the District.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Note 3. Indirect Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

LAS VEGAS-CLARK COUNTY LIBRARY DISTRICT
